Dear Parent and Guardians,

As the 2021 school year commences, levels of excitement and anticipation increase as students look forward to new learning opportunities, both inside and outside of the classroom. TAS Kewarra Beach Campus Primary offers a comprehensive co-curricular program featuring academic extension and enrichment opportunities. Students are encouraged to participate in a range of sporting, cultural, performing arts and personal development programs ensuring they have every opportunity to develop the school values of **Compassion, Perseverance, Curiosity** and **Integrity**.

TAS is a **compassionate** school. The Junior Round Square Committee coordinate several student fundraising events throughout the year, such as Charities Fair, raising awareness and much needed funds for various local and national charities, as well as providing relief for flood, bushfire and drought victims. When possible, students also engage in weekly community service visits to Kewarra Aged Care, assisting residents with a range of activities and building cross generation relationships. Through their contribution to the co-curricular program, students build multi-age friendships and develop understanding and concern for the feelings of others. Aligned with the Round Square ideal of Service, valuing empathetic attitudes benefits all students but particularly those who are experiencing anxiety, trauma, stress and hardship in their lives.

Our Co-curricular Program is designed to develop **perseverance**, commitment and resilience. All clubs require students to engage in skill development over a longer period. Many students are involved in multiple co-curricular opportunities, creating the need for them to manage their time effectively, prioritize competing commitments and creatively problem-solve their way through organisation issues. At TAS, we encourage students to **persevere** with ongoing co-curricular programs to help them develop the confidence, leadership skills and work habits needed for a successful future.

Inspiring and nurturing **curiosity** is the focus of our Co-curricular Program at the TAS Kewarra Beach Campus Primary. The program provides opportunities for students to explore new information, work collaboratively, think creatively, problem-solve, ask questions and innovate. At TAS we believe that in an increasing globalised and complex world, fostering **curiosity** ensures not only the survival of our students and community, but increases happiness, achievement, empathy and the ability to build positive relationships.

Our dynamic Co-curricular Program helps us infuse **integrity** into the character of our campus. Fostering honesty and respect in relationships, communications and collaborative activities helps us develop socially-responsible and ethical leaders of the future. We know that not all students excel academically. Experiencing success or being recognised for their contribution to the co-curricular life of the campus helps students believe in themselves, giving them the confidence to take an active role in the school community as well as becoming civically-engaged in local events and agencies.

To our new families - we look forward to welcoming your child into our dynamic and inclusive Program, and to our existing families, we welcome you back for another successful year. The strong sense of belonging and camaraderie that is embedded in the ethos of our campus will help your child thrive.

Yours sincerely,

Mary Kershaw
Head of Kewarra Beach Campus - Primary
