# PRINCIPAL'S WELCOME

Welcome to Trinitas for 2019. In the following pages you will see a snapshot of this remarkable school community. The word “community” is fundamental to a successful school, and the positive relationships between our students, staff, families and friends are what makes Trinity Anglican School truly special.

Our 2018 Year 12 graduates again achieved truly stellar results. Whilst each year the Year 12 cohort has their own “DNA” and the number of OP1s doesn’t define a cohort’s success, it was still a wonderful achievement for 5 of our students to be awarded an OP1. More importantly are the many students who achieved OPs higher than they had predicted. It is amazing what a supportive community, with aligned values and goals, can achieve.

In 2019 we spent time reflecting and reviewing what the “Anglican” in Trinity Anglican School really means. This led to the development and release of our Anglican Ethos paper, available on the school website. The paper outlines the 3 pillars that all Anglican schools are built upon, the culture statements that outline who we are and explanations of the Christian values on which our school culture is based. It is a powerful document and I recommend it to you.

Sadly, we lost a much loved member of staff in Term 1, Ms Kara Pylypuik, mother of Arawyn,

Head of Dalrymple House and senior Biology teacher. Kara lives on in our memories and her legacy of compassion, humor, creativity and intellect will be felt for a long time. She was a beautiful human being and we miss her.

So many wonderful achievements have occurred this year. Our students continue to perform admirably on local, regional, state and national stages. From a Mathematics State Prize winner in Year 4, to Gold Duke of Edinburgh awards in Year 12, we celebrate the many achievements of our students who encapsulate the famed “TAS Spirit”.

2019 saw the reintroduction of the Parent and Friends TAS Gala Ball. And what an amazing night it was! My thanks in particular to the Parents and Friends committee for their hard work and commitment to resurrect this wonderful event in the life of the school. Thank you to all those in our community who attended and supported the Ball.

Prior to that, STEM Week was a great success with many activities and visiting experts. The stargazing evening was very popular, the rockets at KBJ campus were awesome and the drone sessions were great fun, just to name a few.

TAS TV has been a highlight of the year, with students planning, writing, presenting, filming, editing and producing each episode under the tutelage of industry expert, Daniel Pycroft, Studio Productions. For the first time TAS sent teams down to Brisbane to compete at the DaVinci Decathlon, competing against the top schools in Queensland, and they promptly went and won one of the eight competition categories!

The TAS Football program went through a review at the end of 2018 and, in partnership with Jamie Gosling Football Academy, we have seen a rapid growth in player numbers and improvement in skills and teamwork.

Preliminary work on the KBJ undercover area is about to commence and we are looking forward to a terrific covered student space for our northern beaches students in 2020.

# PRINCIPAL'S WELCOME

Student well-being is foremost and TAS continues to grow and develop our student well-being framework with our Counsellor available three days a week and the appointment of our Chaplain, Mr Patrick Williams. Mr Terry Reid is a member of the Anglican Schools Commission Cyber Safety Network and is able to keep staff, students and families updated on the latest issues regarding the safe use of digital devices.

We farewelled a number of much-loved staff in 2019 – Ms Georgia Wilson, Ms Helen Yeats, Mr Phil Wyatt, Mr Ben Featherby, Mrs Erica George, Mrs Di Daniels, Mrs Liz Whitehead, Mrs Joy Dinsey, Ms Helen Thompson, Ms Vani Woods and Ms Sue Wicks. All have contributed in a variety of ways to make TAS the school it is. Sadly we mourned the passing of Ms Maude Way, sister of Bishop George Tung Yep, great aunt to Stephanie and Thomas and a true long-time friend of the school.

The school is reaching somewhat of a crossroad in its history. The Board of Directors and the leadership team have been working hard on a business plan to position TAS for success over the next 10 years and beyond. The new business plan will be announced in 2020 and I am very excited about our future.

I would like to thank our parents. Investing in a TAS education is a significant financial commitment. Our parents understand the importance of the right education for their child, a culture that celebrates and supports the effort and achievement of all students. We are an independent, coeducational Anglican school based on Christian values and our families align with our core beliefs. I see and hear of the results and successes of a TAS education from many sources, in particular the remarkable stories of our graduates. I look forward to the next chapter in this compelling narrative from the class of '19.

I would like to thank our community for their warmth, support, collegiality and good cheer. Thank you, in particular, to Mrs Margaret Kennedy, Mrs Kathy Romano and Mr Glen Macpherson for their work in ensuring our school runs smoothly, as well as my colleagues on the senior leadership team and staff. My thanks to Sue Crocker and the hard-working Parents and Friends Association, as well as the wonderful members of our Parent Community Groups for their significant contribution to school life. Thanks to our supportive new Anglican Bishop of North Queensland, The Right Reverend Dr Keith Joseph, and to Mr Jason Fowler and the School Board of Directors for their continued support and encouragement.

***Mr Paul Sjogren***

# STUDENT LEADERS 2019

## STUDENT LEADERSHIP TEAM

### WHITE ROCK SENIOR CAPTAINS

**School Captains:**

Ky Rankin and

Fauve Salleras

**Academic Captains:**

Kaelan Leszczewicz and

Fauve Salleras

**Chapel Captain:**

Maria Wells

**Arts Captains:**

Alexander Swanston and Sarah Wonnacott

**Round Square Captains:**

Maxwell Wartoto and

Gabrielle d'Hotman de Villiers

**Sports Captains:**

Flynn Martin

**Transition Captains:**

Austin Walsh, GiaAn NguyenQuach and  
Matthew Smart

### HOUSE CAPTAINS

**Dalrymple**

**Captain:** Ky Rankin

**Kennedy**

**Captains:** Jason Nguyen and

Stella Dziov

**Vice Captain:** Layna Stapleton

**Leichhardt**

**Captains:** Joel Sutherland and

Ariana Stones

**Mulligan**

**Captains:** Alexander Swanston and

Sarah Wonnacott

### WHITE ROCK JUNIOR CAPTAINS

**School Captains:**

Samuel Bryceson and Angela Xiang

**Sports Captains:**

Charlie Barker-Ré and Joanna Chen

**Arts Captains:**

Melody Grace and Nyla Rezia Harris

**Young Round Square Captain:**

Tegan Crocker and Matilda Hancock

### HOUSE CAPTAINS

**Dalrymple:**

Holly Mood and Ethan Turnbull

**Kennedy:**

Seth O'Connor and Alice Smith

**Leichhardt:**

Carleena Robati and Jack O'Neill

**Mulligan:**

Harnoor Gill and Alyssa Atfield

### KEWARRA BEACH JUNIOR CAPTAINS

**School Captains:**

Ruby Colbridge and Hugo Loveridge

**Sports Captains:**

Jonah Matthews and Beatrice Harris

**Arts Captains:**

Neave David Stern and Roisin Liston

**Young Round Square Captains:**

Antonije Dimitrijevic and Ruby Fritzsch

### HOUSE CAPTAINS

**Dalrymple:**

Sherri Albrecht and Alfie Ward

**Kennedy:**

Jay Curtis and Grace Northews

**Leichhardt:**

Luke Berther and Sara Shimizu

**Mulligan:**

Sebastian Grillo and Beatrice Harris

### HOUSE TROPHIES

**Senior School:** Leichhardt House

**Junior School:** Kennedy House

**Senior Academic Cup:** Dalrymple House

**Senior Dragonheart Trophy:** Mulligan House

# TRINITY DAY

# REMEMBERING KARA

This year, the TAS Community mourned the passing of Ms Kara Pylypiuk - our beloved Miss P. She was such a large part of the TAS family which she joined in September 2005 after a stint on Thursday Island teaching Biology.

In 2017 Kara was appointed Head of Dalrymple House and has left a lasting legacy there, where the House is “United through Spirit”. Kara regaled us with her amazing stories from the Zodiacs she piloted around Vancouver Island sharing her passion for the Orcas and marine life there. She knew them by name and many of us learned to recognise them as well through her stories and photographs.

Kara organised a number of Ski Trips to the South Island of New Zealand where she shared her passion for skiing with those of us lucky to be involved. She loved telling stories about the Lord of the Rings Trilogy and the Hobbit and students enjoyed learning about where certain parts of these movies were filmed.

It was with great sadness that we paid our respects to her at a memorial service in our Bishop Centre in February 2019.

TAS students honoured her with prayers and readings, and past students shared their stories of the massive impact she had on their lives.

At the conclusion of the service, students, staff and guests were invited to light a candle in her honour.

Befitting Kara's passion for the reef, TAS set up the Kara Pylypiuk Memorial Coral Garden through the Reef Restoration Foundation. This adopted ocean-based garden is part of the Great Barrier Reef at Fitzroy Island and forms part of the project to regenerate and recover our beautiful coral reefs, an area we all know was close to Kara's heart. Generous donations were received by many current and past TAS families and staff.

Thanks to the Reef Restoration Foundation - our memorial coral tree for Kara Pylypiuk has been established. The coral tree currently has 80 corals nesting in it, growing and flourishing. When they are mature, these will be outplanted back into the Reef.

What a remarkable way to remember our much loved Kara. Thanks to all those who contributed

to the initial fund. The team at Reef Restoration will keep us updated as these corals grow.

Throughout 2019, TAS staff and students were involved in Daffodil Day as well as a Fun Run, both in honour of Kara.

The Class of 2019 are planting a tree in Kara's honour and this will be a lasting memory from them of their respect and admiration for such a passionate and influential educator.

Farewell Ms P. You are gone but not forgotten. Your memory will live on in our hearts.

# INTERNATIONAL CONNECTIONS

The International Program at TAS has been busy welcoming schools from around the world. This program is a wonderful opportunity for our students to engage in intercultural exchange activities and provide first-hand experience with international students and language.

As a school where Japanese and French are integral parts of our curriculum the international program works harmoniously with these departments to provide hands on language experience and cultural awareness. This year our Japanese teacher, Mrs Jennifer Fukushima has integrated some of our visitors into her Japanese classroom to provide challenges and educational opportunities for her Japanese language students. Two French students visiting TAS were also integrated into French classes with Mrs Jessica Paterson.

This year we had three students from our sister school in Japan, Keimei Gakuen: Yuka Ishizuka attended TAS for 10 weeks in Term 1 in Year 9. Yuka was an excellent student who has volunteered to homestay one of our own students in Japan for three months.

Hanae Miura has been in Year 9 at TAS for a year and experienced the Year 9 camp which she bravely attended and enjoyed immensely.; Aoi Yamada has had a wonderful year in Year 10. Her work experience appointment was with the TAS International Department where she showed great initiative and used her Japanese language skills to enhance the experience for visiting groups. Aoi also helped with the visit from Keimei Elementary School by visiting Green Island with them as a representative of our school.

In October this year, we welcomed our volunteer from Iwate University, Satsuki Wano who will visit TAS until March 2020. During this time she will work with the Japanese teachers in Junior and Senior school as well as the After School Program.

As always, we have been blessed to have the support of many TAS homestay families who have opened their houses to our visitors. Thank you so much for your assistance and we do look forward to working together in 2020.

Thank you also to TAS staff who always provide an amazing work environment and inclusive classrooms for our visiting students. Without your support and your flexibility our students would miss out on this wonderful opportunity for immersion with international students.

**Ms Joyce Lester**  
**Director of International Education**

The international department works closely with the EAL/D teacher Yeshim Grace who helps to support students with **English as an Additional Language or Dialect**

At the start of this year we welcomed seven students from Sakuragaoka High School and three from Keimei Gakuen. Two students have stayed on for the rest of this year and have continued the Direct Instruction speaking course. As well as singing in English and explicit speaking practice, these students have been exposed to ESL and conversational English lessons, and had access to the online Literacy course, 'Literacy Planet'.

Full immersion into an English speaking environment with scaffolded support is only one aspect of what is offered in the EAL/D department at TAS. We look forward to 2020 and the progression of EAL/D in the curriculum and with visiting long term students.

**Mrs Yeshim Grace**  
**EAL/D Teacher**

I am a graduating international student at Trinity Anglican School. I can say without a doubt that my education at TAS has helped to mould me into the person I am today.

Life at TAS has been an amazing experience.

From my very first day at school to my final day, the staff and students here have been nothing but supportive and caring. Through the amazing support network of the staff, I have been able to master the English language as if it were my first language. When I first started I had little experience with English, but today I am proud to say that English is one of my strongest subjects.

There have been a plethora of great opportunities that helped me grow outside the academic fields as well. Through TAS, I was able to first discover my love for Football. Today I cannot imagine life without it and some of my most memorable and fondest memories were made on the China Football Tour. Our team, led by Mr Osmond, went to China on a cultural and sporting tour. There we made lasting bonds with the students we met and enjoyed playing football as well.

As Round Square captain I have thoroughly enjoyed planning and enacting programs which help our school make a positive difference in the world. I have also enjoyed the added benefit of seeing the amazing international culture present within TAS, welcoming almost on a weekly basis, schools from Japan and getting to know Exchange students from around the world visiting on Round Square exchanges.

Of course none of this would be possible without my parents. They have supported my every step of my journey at TAS. I am extremely lucky to have such amazing parents and role models who have sacrificed so much to ensure that I have best education to launch me into the next stages of my life. I will always be grateful to my parents and Trinity Anglican School for ensuring I am fully equipped for the continuation of my Journey after High School.

**Maxwell Wartoto**

Six years, that is how long I have spent within the walls of this school as an international student. I have learned and experienced many things, both good and bad, and faced hardships which have helped shape the person that I am today.

When I first came to TAS I was in Year 7. It was a very

strange experience for me, coming from Papua New Guinea. The people were so kind and yet so different. Being in a new country, in a new school, in the beginning at least, scared me. I had never before been in a situation where people were interested in me and were willing to get to know me. For the first time in a very long time I was happy. I made friends and enjoyed my time at TAS.

It was not always easy though. Sometimes I found the work to be hard but I kept trying to do the best I could. Dealing with tough times taught me many lessons, and, in a sense, I am glad that I experienced the good and the bad because it allowed me to learn and grow. I am so grateful for all of my experiences and opportunities at TAS and I have really enjoyed being part of this community.

I realise that the six years I have spent in TAS have been instrumental in my growth as a person. The people I have met and the lessons I have learned will be something which I will carry with me always. TAS has taught me so much and I will always be thankful and cherish my time and the friends I have made.

**Protvously Sarkar**

# ROUND SQUARE

The Round Square philosophy embraces six pillars or IDEALS: Internationalism, Democracy, Environmentalism, Adventure, Leadership and Service. At TAS, the pillars are fully embedded in our programs and as such all of our students have significant opportunities to experience and achieve in ways that exceed their own perceptions of limitation. At TAS in 2019, our Round Square philosophy looked like this:

## ***Internationalism***

A spirit of internationalism is found in those who seek to discover and embrace the similarities and differences between cultures and nationalities in ways that promote meaningful and lasting understanding, tolerance and respect.

Short and long stay students; Regional and International Conferences; relationships with sister schools; international and national exchanges; visiting international schools' study and sports tours; sponsorship of a World Vision Child Kubangu; and NAIDOC Week Celebrations.

## ***Democracy***

A spirit of democracy embraces a sense of equality, fairness, justice and a desire to do what is right (for the greater good). Freedom of thought and speech are valued and appropriate forums and channels of communication are discovered and explored.

Model United Nations debate; Junior and Senior Round Square Student Committee; Captaincy elections; Public Speaking Competition; Interhouse and Interschool Debating Competitions; Outdoor Education Program activities.

## ***Environmentalism***

A spirit of environmentalism centres on the significance of understanding mankind's place in the universe, the forces that shape our surroundings and the impact we have on those surroundings. A systems-based appreciation of the interdependence between human beings and the planet highlights the fine balance needed to make that relationship a healthy one.

Tree planting activities; a variety of recycling initiatives; Duke of Edinburgh Award; Community Garden; Beach Clean Up; Drain Stencilling.

## **Adventure**

A spirit of adventure is characterised by those who push themselves beyond their perceived limits, cross boundaries and discover that they are capable of more than they thought. It encompasses preparedness to take risks, face a challenge and persist against the odds and in the face of potential failure.

**Outdoor Education Programs**  
**Years 2 to 11; Certificate II in**  
**Outdoor Recreation; Duke**  
**of Edinburgh Award; Year 6**  
**Exchange to Canberra.**

## **Leadership**

A spirit of leadership is found in those whose convictions are rooted in personal responsibility, kindness and justice. It recognises that successful leaders are driven by a desire to be of service to others and to nurture, guide, develop and help them to improve and succeed.

**Outdoor Education Programs;**  
**Certificate II in Outdoor**  
**Recreation; Duke of Edinburgh**  
**Award; Year 12 Leadership**  
**Retreat; Year 6 and Year 12**  
**student leadership framework**  
**and opportunities.**

## **Service**

A person living out a spirit of service considers the opportunity, in all aspects of everyday life, to provide for the needs of others and take social action. They seek to ensure that their impact, and the difference they make in the world, are positive.

**Operation Christmas Child;**  
**tree planting; aged care visits;**  
**Biggest Morning Tea; fund**  
**raising; International food**  
**stalls; bake sales; Duke of**  
**Edinburgh Awards; service**  
**activities during Round Square**  
**Conferences; Beach Clean-**  
**Up; food donations; Rosie's –**  
**Friends on the Street; Women's**  
**Shelter Carins; Collection for**  
**YAPS; Solar Buddy projects.**

# ROUND SQUARE

Round Square is an association of some 200+ schools worldwide, which share a common ethos based on the IDEALS - Internationalism, Democracy, Environmentalism, Adventure, Leadership and Service. Kurt Hahn, a German educator and founder of Round Square believed that education, more than learning in a classroom, encompassed many aspects of one's character and he encouraged his students to be more than they believed they were -

***"Plus est en vous – there's more in you than you think.***

Active membership of Round Square requires involvement in conferences and exchanges annually, as well as participation in a number of fundraising and service activities. The Round Square Student Committee is charged with raising money for the Discovery Fund. Each year a sum of money is pledged and fundraising activities are directed to this end in the first instance. The committee currently meets weekly; is chaired by the Round Square Captains and is subject to parliamentary conventions. The Student Committee (in consultation with the Round Square Coordinator, the Director of International and the Deputy Principal) makes the decisions with respect to the types of events that will run and their timing.

2019 has been incredibly busy for Round Square with attendance at RSRC Woodleigh and RSIC India; several student exchanges both nationally and internationally; continued commitment to service projects and a hectic series of fundraising activities.

Thank you to my Captains for their energetic and enthusiastic support and to the wonderful group of staff and students who regularly attend our meetings and lend a hand.

**Mrs Kerry Moyer  
Round Square Coordinator**

The Round Square Program at Trinity Anglican School has continued to grow in 2019, with students attending domestic and international conferences, involvement in fundraising activities for the Discovery Fund and local organisations and active promotion of the Round Square IDEALS throughout the TAS community.

Round Square Conferences provide incredible opportunities for students to develop leadership expertise, increase cultural understanding and acquire skills necessary for successful teamwork. They explore new places, participate in adventure activities, and have the opportunity to make new friends from around the globe.

This year, eight junior students embarked on a domestic conference to the Woodleigh School on Melbourne's Mornington Peninsula. Isaac Burton, Holly Brislan, Elangi Cuttance, Samantha Johnson, Matthew Elliott-Darlow, Maegan Berther, Emily Collins and Astrid Grant were accompanied by Mr Manea and Mrs Moyer. They headed to Melbourne in April and began their journey with a tour of city sights that included Federation Square, the MCG, Queen Victoria Market and Eureka Sky Tower. They rode on iconic Melbourne trams and participated in adventure activities: kayaking and white water rafting on the Yarra River, as well as rock climbing, abseiling and caving.

The conference theme was Gen Z: Mind Shifters and it challenged students to think about how they might make a difference with respect to environmental and sustainability issues. Maegan wrote: These experiences opened our eyes to the change we as Gen Z's can make in the way we appreciate the environment around us and the differences we can make if we have the courage to speak up and face the problems of today head on rather than avoiding them.

Four Year 12 students Gabrielle d'Hotman de Villiers, Ky Rankin, Matthew Smart and Imogen Weatherstone were the delegates for the Round Square International Conference 2019, held at the Emerald Heights International School, in Indore, India. The conference theme, "Sarvodaya - The World We Wish To See",

focused on young people as future leaders of our troubled planet and looked at how they might potentially tackle issues like climate change, social inequality, economic globalisation and personal autonomy. They toured the country sightseeing, participated in service activities with underprivileged children, learned about sustainability, took part in "Run for cancer" with India's Blade Runner Major D. P. Singh and heard from esteemed guest speakers including diplomat Shashi Tharoor, Nobel Peace Prize Winner Kailash Satyarthi, and the first artificial intelligence global citizen, Sophia. The delegates were immersed Indian culture throughout their stay and they interacted with like-minded students from all over the world.

Several of our students have taken advantage of the opportunity to participate in a Round Square exchange this year. Darwin Fritzsch has completed his Year 9 studies by attending the prestigious Schule Schloss Salem in Germany; Jennifer Swaney heads to Strathcona-Tweedsmuir School in Canada at the end of the school year; Katie Maguire will enjoy January in Canada at Appleby College and Ella Reeves will visit our sister school Keimi Gakuan in Tokyo for immersion in Japanese culture from the end of November.

Year 8 students have also taken the option of two weeks of exchange: Taylah Steinhofer and Ariah Salvestrin headed to Bunbury Cathedral Grammar in Western Australia; Elliott Smyth headed to Scotch College in Perth; and Tamara Griffith spent two weeks at Ballarat Grammar School. In turn, the TAS Community hosted exchange students from these schools, with some still to join us in 2020.

The Round Square Captains along with the entire Round Square Committee have been energetic representatives of Round Square and overseen various projects within the school and community. We continue to support Rosies - Friends on the Street, a local charity that provides food and conversation for the homeless and disadvantaged in Cairns. Year 11 and 12 students regularly volunteer for this, serving food and talking to those less fortunate and other students make sandwiches after school to take to the outreach evening.

The Round Square Committee has implemented

multiple environmental projects around the school. Both the Pen Recycling and Cans For A Cause programs encourage recycling habits in the students and promote environmental awareness. In partnership with Rotary Club of Cairns Sunrise we have begun collection of bottle tops for Envision Hands – a project that makes bespoke prosthetic aids for children in need.

Finally, the Round Square Committee helped fund the purchase of solar panel lights that were constructed by students during science week. These were sent to children without power in developing countries through the Solar Buddy Project.

Student-led fundraising for Round Square in 2019 has hit an all-time high with the committee participating in bake sales, curry days, free dress days and more. These funds have not only enabled us to meet our Round Square Discovery Fund pledge, but have allowed us to contribute funds and goods to local organisations, including Rosies' and the Women's Shelter Cairns

Round Square in 2019 has provided many of our students with opportunities for travel, adventure and service. Leadership skills and teamwork have been practised and improved and friendships made with students from all over the world. Thank you to the TAS Community for the amazing support you have shown us as your Round Square Captains in 2019.

# SCIENCE WEEK

# OUTDOOR EDUCATION

This year has been fantastic for our Outdoor Education programs and we continue to refine them to better fit our overall scope and sequence. We changed venue for our Year 3 program which yielded improved outcomes, and have implemented a brand new Year 10 program, focusing on Leadership, Teamwork and Communication. Participation rates in our programs have been high as usual, with several programs having 100% attendance and all others in the high 90's. Non-attendance is for medical, elite sport and family travel reasons only. Each of our programs now have their own YouTube video which can be found on the TAS Marketing YouTube Channel – check them out and subscribe to the channel while you're there. Our closed Facebook group has now grown to over 600 members.

For the fourth time our outdoor education program has been selected as a finalist in the Outdoors Queensland Awards. The awards are presented by the Queensland Outdoor Recreation Federation (QORF), the state peak body for outdoor activities.

We have again been nominated and selected as a finalist for the Award for Outstanding Achievement (Organisation). We have been a finalist in this award in 2013 and 2016 and won it in 2017.

While we are honoured to receive these accolades, credit must go to several other groups of people, including our teaching staff for so willingly attending programs, outdoor education contractors for helping us to facilitate these experiences at the highest level and for taking such great care of our students, parents for supporting our programs in many ways and most importantly our students, who while being the primary beneficiaries of our program outcomes, must complete several days of being

challenged physically, socially and emotionally.

We have engaged the services of an external industry expert consultant, Dr Clare Dallat from Risk Resolve, to conduct a comprehensive risk management review to ensure our practices are as effective and suitable as they can possibly be. The first two steps in this process have been completed, with the third and final step set to be completed by early 2020. Staff in our department have completed a large amount of professional development, including compliance qualifications, being vertical rescue, mental health first aid, CPR, pool lifeguard, student protection and two critical incident management workshops. As part of my role of Vice President of the Outdoor Educator's Association of Queensland, we organised a one-day forum for local outdoor educators at the end of 2018 and hosted it at TAS. We are currently involved in organising another for the end of 2019.

Many new initiatives have been implemented in 2019 to aid in student readiness for programs and student learning from them. These resources include a new junior school packing list and student preparation booklet, program briefing storybook, campfire songbook, readings handbook, learning reminders bookmarks and new pre- and post-program resources on Stile for senior school students.

With the help of students from the TAS TV team we have produced a TAS Outdoor Education Promotional Video. The primary aim of this is to help define and explain exactly what outdoor education really is and looks like, with a secondary focus on how we do it at TAS.

The elective Year 10 Outdoor Recreation - Personal and Leadership Development

Program was further developed in 2019 to better fit in with the changing academic calendar due to ATAR and also to provide students with the most useful life skills and qualifications. Students exited this program with a first aid certificate, bronze medallion lifesaving certificate, school reference and program certificate, and an outdoor logbook with around 30 days of practical experience.

World Challenge Expeditions continue to grow in popularity and the value placed on them by the whole school community. Almost one third of the Year 10/11 cohorts are attending a 27-day expedition in December to the Indian Himalayas, which is the 5th World Challenge Expedition run by TAS. The Duke of Edinburgh International Award Scheme is also growing at TAS. By the end of 2019 we look set to have presented two gold, four silver and ten bronze awards.

### TAS Outdoor Education – Year Level Programs Scope & Sequence

<b>Follow-Up</b>	Teacher Led	Teacher Led	Teacher Led	Teacher Led	Teacher Led	2 x Lessons in Pastoral Care Classes	2 x Lessons in Pastoral Care Classes	3 x Lessons in Pastoral Care Classes	3 x Lessons in Pastoral Care Classes	Assembly Talk	In House Groups

All junior school programs focus on developing independence, resilience, personal responsibility, comfort in and familiarity with the outdoors, teamwork and an awareness of group dynamics. Key outdoor activities of hiking, canoeing, abseiling, low ropes courses and navigation are introduced.

All senior school programs focus on resilience, personal responsibility, leadership and teamwork, and include a community service component. The programs are journey-based, using non-motorised transport and incorporating a large range of expedition skills. In addition to the further development of the key outdoor skills introduced in primary programs, new activities including high ropes courses, mountain-biking and sailing are also undertaken.

**Notes:**

Outdoor Education can be defined as experiential learning which occurs in, about and for the outdoors. Elective Year 10 Outdoor Recreation Program also.

# OUTDOOR EDUCATION

Thank you once again to all who support our outdoor education program. We are fortunate to have such dedicated and experienced outdoor education contractors, with Mike Barker facilitating nine programs for us, Hannah Lambert four programs, Bel Stovell, Marika Rogers and Louella Mays three programs each and several of our caving and paddling specialists completing a couple of programs each.

We look forward to 2020 to continue work on refining programs to better address the current needs of our students. We aim to again present some of our student preparation and learning initiatives at the National Outdoor Education Conference – a forum in which TAS Outdoor Education is well known and highly regarded.

***Mr Darren Osmond***  
**Director of Outdoor Education and**  
**Director of Co-Curricular**

# OUTDOOR RECREATION

The Year 10 Outdoor Recreation Program is an elective in-house program custom designed to extend students in the areas of outdoor education and recreation. Thirteen students began this program in February and met on most Wednesday afternoons during activity time, with longer practical sessions a few times each term and a four-day expedition in the last week of each term. In total students spent more than 30 days doing practical activities, as per the term outline below.

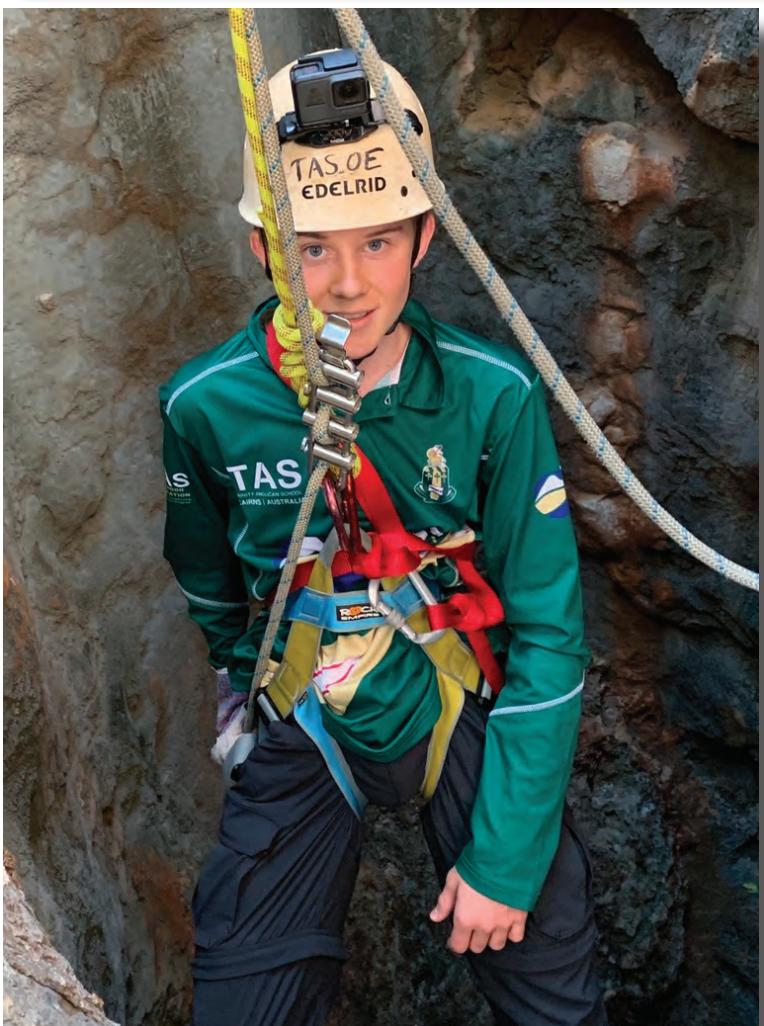

Favourite experiences for the students included hiking the world-renowned Hinchinbrook Island, indoor rockclimbing at both TAS and the Northern Outlook, abseiling 27m into a cave at Chillagoe and then laddering back out, sea kayaking at both Mission Beach and Lake Tinaroo, mountain-biking in various locations, trekking to the top of Walsh's Pyramid, swimming underneath Peet's Falls and spending 6 hours underground in Queensland's largest cave.

Students also spent time doing various reflection activities to continually improve their personal skills and practiced leadership on several occasions, along with learning how to cater successfully for various group sizes. Along with skills learnt, students also completed the program with a Senior First Aid Certificate, Bronze Medallion Lifesaving Certificate and a program reference letter.

Term / Activity	Day Trips	End of Term Expedition
<b>Term 1—Paddle</b>	Kayak Skills, Paddling	Paddling Expedition
<b>Term 2—Rope</b>	Rockclimbing, Roping	Chillagoe Caving Expedition
<b>Term 3—Hike</b>	Hiking & Navigation	Hinchinbrook Island Hike
<b>Term 4—MTB</b>	Lifesaving & Rescue	Mountain-biking Expedition

# DUKE OF EDINBURGH AWARDS

The TAS Outdoor Education Department look after the Duke of Edinburgh (International) Award at the school.

At the time of writing there are more than 50 students at TAS registered for the Duke of Edinburgh Award Scheme. Students can start when they are 14 years old and have until they are 25 to finish their award/s.

Our main signup time for this program is prior to the Year 9 Outdoor Education Program, where it can then be used to count towards one quarter of the bronze level award.

Students undertaking a World Challenge Expedition can also use it to contribute to half of their Silver Level Award.

## 2019 AWARD RECIPIENTS

### BRONZE

Harry McLean, Nate Smyth, Fletcher Le Sueur, India Rowbottom, Tahlia Middleton, Jessica Overton, Murray Colbridge and Gregory Mock

### SILVER

Ella Reeves, Annelise Shepherd and Fletcher Le Sueur

### GOLD

Sarah Wonnacott and Kaelan Leszczewicz

# **My Journey to Complete the Duke of Edinburgh Gold Award**

I have recently achieved my Gold Duke of Edinburgh award in my final year of high school at Trinity Anglican School. The Duke of Edinburgh (International) Award, or more commonly referred to as 'Duke of Ed', is designed to encourage anyone between the age of 14-24 to try a range of activities, challenging themselves and gaining recognition for their additional achievements and service within communities.

There is a slight misconception that in order to complete a 'Duke of Ed' award you have to have lots of spare time and need to go out of your way to complete each stage and activity; however, this is not entirely true. Although some of the aspects you may need to organise extra time for such as the adventurous journeys, and possibly some of the service, the majority of the activities most people already do within their day-to-day lives.

The award consists of 3 Levels: Bronze, Silver and Gold. Within each level there are four sections: Physical, Skill, Service and Adventurous Journey. In addition, the Gold Award also has a Residential Project. Most people play a sport or do some other regular physical activity, which is the physical section covered. The skill section can include anything from learning to drive a car, playing a musical instrument, or learning a language. The service section is community orientated such as volunteer coaching, umpiring, surf lifesaving etc.

Personally, I used netball as my physical activity, piano as my skill and piano and dance teaching as my service options. Trinity Anglican School has an amazing outdoor education program and I was able to use some of these to count towards my adventurous journeys. Many

people who participate in 'World Challenge' at TAS use their trekking phase as one of their adventurous journeys. My two 'Duke of Ed' adventurous journeys included both the world-renowned Hinchinbrook Island Thorsborne Trial and an off-track walk in Danbulla Forest (behind Lake Tinaroo). I had a fantastic time, swam in beautiful gorges, and learnt some useful outdoor skills while developing my team work and self-confidence.

The Gold Residential Project challenges you to look at life from a different perspective. Many 'World Challenge' students use the overseas project phase towards this section but there are also numerous local activities such as Leadership Training, volunteering work with Conservation groups, or being a crew member on a tall ship, just to name a few.

Not only do you gain recognition for this internationally recognised achievement, you also have some amazing experiences, make lifelong friends and learn skills you can use for the rest of your life, while making a difference to communities in a positive way. I'd encourage all students to give 'Duke of Ed' a go - you won't regret it!

**Sarah Wonnacott**  
**Year 12 Student and**  
**Duke of Edinburgh Gold Awardee**

# WORLD CHALLENGE

In late November, 29 Year 10 and 11 students will embark on the journey of a lifetime – a 27-day student-led World Challenge expedition into the Indian Himalayas. This is the 5th World Challenge Expedition run by TAS, with previous experiences being Borneo in 2011, Ecuador in 2013, Tanzania in 2015 and Nepal in 2017. The culture around this at TAS is now that this experience is incredibly valued by both students and parents, with almost half of the Year 10/11 co-hort attending the initial information meeting and almost of third of the co-hort actually attending the expedition. Three of the students attending this expedition are the third child in their family to attend a World Challenge Experience at TAS, with a few more being the second child in their family to attend one.

This journey however began almost 18 months ago when the students made the commitment to join the team as a “challenger” and began fundraising, not only for themselves, but also for the group’s community service project. The extensive expedition preparation has included a myriad of student and parent meetings, training expeditions and group fundraising initiatives including a disco, school fete stalls, social media promotion (GoFundMe), bake sales and catering for the TAS Sporting Clubs breakup function. The students have raised approximately \$5000 in total, all of which will be used on their community service project at a school in India.

The students will travel in separate Year 10 and 11 teams on this occasion due to the large number. Miss Beveridge and Mr Haseldine will accompany the Year 10's, along with their leader Marika, who is also one of our outdoor education contractors that has worked with several of these students on the Year 9 Outdoor Education Program in 2018. The Year 11's will be accompanied by Ms Warren and Mr Osmond, with their leader being Tony from the UK, who was also leader for our 2015 and 2017 World Challenge Expeditions.

**Mr Darren Osmond**  
Accompanying school leader and  
TAS World Challenge Coordinator

# TAS TV

# LIBRARY

Our school libraries offer our students a welcoming, dynamic and stimulating environment. They are a place for students to connect, collaborate and learn, to use their imagination, communication and critical thinking. In addition to being the place of learning for students of all year levels, TAS libraries provide a comfortable, nurturing space in which to dream, play, explore and create.

Our libraries aim to:

- Inspire students to be lifelong learners and develop independent reading skills
- Provide a space for the exchange of ideas, collaboration and creativity
- Offer quality programs that support the curriculum
- Promote information literacy by helping students develop skills to find, evaluate, use, create and share information and knowledge
- Source and deliver suitable and current resources in multiple formats
- Support teaching and learning strategies

This year's library events included:

- Michael Quinn Story Teller
- Book Fair
- National Simultaneous Storytime
- Readers Cup
- Book Week
- Quizardry (Harry Potter Trivia)
- Author Visit – Sheryl Gwyther
- Book Launch – The Biscuit Bandit by Shannon Brischke
- TAS Tall Tales

**Mrs Karla Ward**  
**Librarian**

# THE ARTS

**Inspiration** (from the Latin *inspirare*, meaning “to breathe into”) is an unconscious burst of creativity in a literary, musical, or other artistic endeavour. At Trinity Anglican School, 2019 has seen this burst of creativity explicitly expelled in the creative platforms of Drama, Music and Visual Art by both students and teachers alike.

Drama numbers have ‘dramatically’ increased this year with students loving the opportunity to study under our always-inspiring drama teacher, Miss Shannon Saunders. Performances at Kewarra Beach Campus by Year 9 and 10 students was a highlight for all students involved. With the inspiration and drive of Mr Terry Reid, and the extra support of Mr Rob Lade, students enjoyed another fantastic Harry Potter and Wizard of Oz inspired Variety Night. Students and parents were immersed in a creative showcase, highlighting the breadth of talent of our junior students. We thank Mrs Sue Stitt for driving another successful Gala Night evening. Senior School ensembles and soloists performed repertoires of polished and professional talents.

Both classroom and instrumental music programs at TAS continue to inspire our students from P-12. The strength of these programs stems from the foundational experiences established in our excellent junior music programs. Mrs Anna Long continues to grow junior music at the White Rock Junior campus through diverse extra-curricular opportunities and performances at numerous events. Over 100 junior students regularly participated in WRJ Ensembles this year including WRJ 3-6 Choir, WRJ P-2 Choir, WRJ Strings, Rockbands, WRJ Beginner Ukuleles and WRJ Continuing Ukuleles. Eisteddfod performances at the new CPAC was another highlight for the WRJ 3-6 Choir, earning them second and third placings. Other performances included after school concerts, Open Days, Mothers and Father’s Day, Variety Night, WRJ Carnival Day and the end of year celebrations.

New to the TAS music fold at KBJ for 2019 is Mrs Kellie Clarke, who has injected a variety of new initiatives to the current program. Three new

instrumental ensembles were offered, including the KBJ Pizzicato String Ensemble, Rock Band and the Flute Choir. These ensembles, coupled with the Senior Choir, Songbirds and Orchestra performed at an assortment of events including the Cairns Eisteddfod, KBJ Music Showcase, Mothers and Father’s Day functions, Trinity Beach ANZAC Day Dawn Service, end of year celebrations and performances at the Smithfield Mall.

We welcomed back Mrs Melissa Coxon to the fold and with her return came a room change for senior music. The addition of a second music classroom allowed for two separate spaces to be utilised; one for instruments and another for theoretical study.

The weather had different ideas for our 2019 Rock Under the Stars showcase, which had to make a shift to the Bishop Centre of Performing Arts. This venue change did not deter the calibre of rock musicians who, under the mentorship of Mr John Grace and Mr Terry Reid, played it loud and entertained the crowds. We also thank Mr Grace for his dedication to developing rock band ensembles across Years 2 to 12. The new initiative of Loud Lunch in Term 4 was an excellent additional opportunity for the senior bands to perform.

Not many schools in Cairns can boast that they offer junior school Visual Arts from P-6 with specialist teachers and programs. Here at TAS we have two highly trained Visual Art teachers who continue to immerse our students in creative thinking. Ms Wendy Ashburton, at White Rock Junior and Ms Kim Rheuben at Kewarra Beach, continued to offer artistic opportunities for our students.

Both junior campuses represented TAS with flying colours at the Cairn Show. WRJ students Noah Kim (Prep), placed first for painting in the Years 5 to 8 category, and Tiarne Kim (Year 2), awarded a highly commended. Year 3 students at KBJ entered the Scarecrow Competition, with one group placing second with their ferocious **Stone the Crow** work. Year 6 students at both campuses leapt into the world of portraiture

by entering The Young Archie's competition, which runs in conjunction with the Archibald Prize at the AGNSW. Additional extra-curricular art opportunities are also provided at both campuses during lunchtimes and breaks; both Art Club at WRJ and Art Lounge at KBJ, continue to grow and provide a haven for budding artists across all age groups and cohorts. They provide a platform for students to work on independent projects. Students at WRJ had the opportunity to develop digital art skills as Media Arts opportunities were extended beyond the art room to be a part of the Care and Connect program.

Leadership in any capacity is not only an honour but also a commitment, which requires responsibility and passion. This year, our Arts Leaders have continued the tradition of outstanding advocacy for the Arts with dedication and integrity. Senior School Arts Captains, Sarah Wonnacott and Alexander Swanston have made an excellent team with their music

and drama backgrounds to support all Arts functions with enthusiasm and professionalism. Our Junior School Arts Captains, Neave David Stern and Roisin Liston from Kewarra Beach, and Melody Grace and Nyla Rezia Harris from White Rock Junior, have also led the way for the Arts. Their unwavering commitment, enthusiasm and musicianship was consistently demonstrated throughout the year. All six Arts Captains have maintained an excellent positon within the school to promote and inspire the Arts and I thank them for executing their roles diligently.

2019 has certainly been a creative year with an array of activities, performances and opportunities offered to our students.

**Ms Leanne Shead**  
**Head of Faculty – The ARTS**

# ARTS AWARDS ASSEMBLY

## DRAMA

WRS Junior Trophy for Drama (Year 7-9) – **Aurelia Wood**  
Perpetual Drama Trophy – **Gabrielle d'Hotman de Villiers**

# INSTRUMENTAL MUSIC

2019 has been an exciting year for those students who have taken part in the many and varied activities of the TAS Music Department. Some of the many highlights of the year are listed below.

## Term 1

The musical year started with the annual Music Workshop weekend held at the end of February. Our guest tutor, Dr Rob McWilliams, had previously worked for over 20 years in the USA. As a musician and educator, he has conducted bands and spoken at workshops throughout the world. He was very inspirational - so much so that we have asked him to return for the 2020 workshop so that he can see the development in the Orchestra, String Ensemble and Concert Band over this last year.

## Term 2

Performance opportunities in Term 2 included the “Rock Under the Stars” concert which, due to the lingering wet season, had to morph at the last moment into “Rock in the Bishop Centre”. This was a very successful re-branding with a large dance area created in front of the stage and refreshment sales outside the hall. The use of the stage and lighting in the Bishop Centre added a special atmosphere to this annual celebration of the talents of our Rock musicians.

In the last week of Term 2 WRJ and KBJ Years 3-6 choirs represented the school in four different sections of the Cairns Eisteddfod. Both

choirs performed very well with the KBJ choir placing third in the highly competitive Sacred Chorus section and the WRJ choir placing second in the Novelty Chorus with their beautiful rendition of “Song for the Mira”. The Eisteddfod was held at the new Cairns Performing Arts Centre for the first time in 2019, and our young choristers enjoyed their chance to shine on the stage at this fantastic new venue.

## Term 3

Every year it is good to be able to feature TAS musicians in the wider community and in Term 3, TAS Jazz and Year 8 Rock Band had the opportunity to perform at the American Car Club Charity event. The TAS ensembles were the only school groups on the entertainment program and there were many favourable comments about their performances from the event organisers.

The highlight of Term 3 was the Gala Concert. In the Gala all ensembles performed two pieces – one piece was “classical” in style and the other was more contemporary or “popular”. This framework formed the basis for a diverse and interesting evening of entertainment. Individual performers were invited to audition for a place in the program and the spectacular talent of our soloists was a very memorable feature of this wonderful concert.

## Term 4

In another musically busy term, many school ensembles and Rock Bands were involved in performances. These ranged from the varied and exciting performances at the WRJ Carnival afternoon, to the wonderful display of talent at the KBJ recital and the ensemble performances at our annual Speech Night. These end of the year events allow the groups to showcase the best of their efforts throughout the year.

Our annual Arts Awards Assembly for students in Years 5 to 12 enabled us to recognise the achievements of students across the Arts, giving them the opportunity to be publically acknowledged by their peers.

In 2019 we have again been very fortunate to have the assistance of our team of highly experienced visiting Music Tutors to assist with ensembles and individual tuition. We very much appreciate their commitment to TAS Music and their tuition has enabled us to provide a wide range of musical experiences for our students.

TAS Jazz, Middle School Band and KBJ Orchestra – Leesa Cooke (Clarinet, Saxophone tutor)

TAS Voices – Jason Harris

Rock Bands – John Grace (WRC) and Dave Shannon (KBJ)

TAS Brass – Nathan Wiltshire (Brass tutor)

Additionally the following tutors have taught individual students.

Flute – Jane Linstead

Cello – Rob Dowdell

Drums – Nasser Selimi

Guitar – Dave Shannon, Sam Conomo

Piano – Anne Linneman, Joy Zahner, Jenny Meehan, Nerise Howes

Finally I would like to thank the members of all our School Ensembles and Rock Bands for their energy and commitment in 2019. We are looking forward to further developing their musical abilities in 2020.

**Mrs Sue Stitt**  
**Director of Music**

# ROCK UNDER THE STARS

# SPORT

As I sit here at my desk penning this 2019 sporting year in review, I can't help but marvel at the rapid growth and development occurring across all 5 of our core club sports. TAS sporting clubs are fielding more teams than ever before, with the TAS Football and Rugby clubs in particular soaring to new heights.

This year, TAS Hockey, Netball and Football all qualified into grand final teams, with two earning the title of grand champions. Notable performances were the grand final victories to the TAS Tigers and TAS Emeralds netball teams. The S4 and S3 TAS Hockey teams, as well as the U14 and U12 Football teams all narrowly lost their grand finals. The positive that TAS club sport can take from those losses is that our playing rosters are strong enough to contest the grand final, which is an achievement in itself. It is encouraging to see pride in sport at TAS continue to develop and to witness the support of our school community.

TAS continues to lead the way over other schools in the Cairns district in our offering of sporting tours to international locations. In July, twelve netballers were accompanied by Mrs Robati and myself on the inaugural Singapore Netball tour. The tour was a mix of sport, culture and sightseeing, and a fantastic opportunity to explore a new country and make new friends. TAS will continue to offer these sporting tours in the years to come across a wide variety of sports.

The TAS community has witnessed and cheered on some exceptional sporting achievements over the course of the year. Layla Parker was selected in the U19 Queensland Hockey Team, Leah Snelling represented QLD at the Australian Swimming championships, Joel Sutherland represented QLD at the Australian Downhill MTB championships, Jacinta Kome, Ella Goddard, Thomas Chen and Flynn Martin participated at the Australian Age Nationals Swimming championships, and finally Callum Wenck will represent the Northern Territory as their U14 goalkeeper for the National Football championships.

Cross country and long distance running is obviously one of our school's sporting strengths, mainly due to the Jogging with Jill activity that is offered across all three campuses as an extra-curricular activity. Thirteen TAS students competed in the Peninsula Cross Country team in the state championships, which is a large contingent from only one school. Likewise, the TAS hockey program is reaping the rewards of an excellent Junior pathway system, with no less than 8 girls qualifying for a position on a state championship team.

TAS is an avid advocate of presenting students with the opportunity to compete in a wide range of sporting pursuits. In 2019, students competed on Netball, Hockey, Rugby League, Surf Life Saving, Football, Rugby, Cricket and MTB carnivals or gala days. We hosted Bromsgrove School from the UK in a netball competition and

Townsville Grammar School in a Football competition. We also competed in Interschool Athletics, Cross country and Swimming carnivals against other schools in the Cairns and wider North Queensland district. We participated in the JSS Interschool sporting competition, and our boys Football team defeated Cairns State High School for the first time ever in the history of the competition.

I would like to congratulate all of our sport captains across all three campuses this year for their commendable effort in this important and busy captaincy. I look forward to welcoming the 2020 sports captains into this role.

To conclude, thank you for your commitment, dedication and effort throughout the year. 2019 has been an excellent year for sport at TAS and I look forward to witnessing the amazing achievements that 2020 will offer.

***Mrs Natalie Andersen***

# AQUATIC CENTRE

The TAS Aquatic Centre continues to improve year after year. While 2018 saw a refresh of our coaching team, with the arrival of Dionne Cotrel and Troy Gazzola, 2019 has been about facility upgrades. Thanks to the hard work of the swimming club, our centre is now only the second facility north of Townsville to have state of the art, FINA approved racing blocks. Together with our new lane ropes, the pool is looking almost as good as our results.

Our swimmers are once again Long Course Regional Champions, Short Course Regional Champions and the top state team in our region.

In March our swimmers dominated the Long Course Regional Championships winning the girls points competition, the boys points competition and the relay competition. It was a procession of TAS swimmers on the podium. We repeated the feat in August at the Short Course Championships where 7 swimmers were crowned age-champion and a generous handful more were runners-up.

This season will see our biggest ever teams compete at both the State Championships in Brisbane and the National Championships in Perth.

In June, the Australian Women's Water Polo Team, the Stingers, called our pool home for two weeks immediately prior to this year's World Championships in Korea. Training twice a day, often late into the night, the team put the finishing touches on their preparation here in our school pool. In Korea the Australian Team broke their medal-winning drought to take home the bronze. We look forward to welcoming them back again next year in the lead-up to the Tokyo Olympics.

At the other end of the spectrum, our Learn to Swim classes are booming. Total enrolments are already up by more than 40% with three hot months to go until year's end. This will easily be our most successful year to date and is a reflection of the hard work Dionne and Rachelle are putting into the LTS program.

Those bigger numbers have been bubbling up to our squads where Troy has taken the reins with our younger swimmers and forged a strong

group of freshly minted competitive swimmers. His passion and enthusiasm ensures that our swim team has a strong future ahead while TAS Swimming continues to dominate the region now.

Not content with having the most successful swimmers in the region, the TAS Aquatic Centre has been busy pushing swimming as a sport forward. Working in tandem with the swimming club, this year saw the introduction of the Swim FanTASTic Series, an innovative new competitive format designed to introduce a robust team competition while recognising swimmers not only for their speed but also for their skills. The new approach to racing shifts the focus for swimmers and rewards competitors both for swimming fast and for swimming well while emphasising the team in a traditionally individual sport. The series is giving swimmers more opportunities to race, more opportunities to improve and more opportunities to win prizes. We are confident that the new Swim FanTASTic Series will transform the sport in our region moving forward.

Finally, our great results and quality staff are contributing to a growing reputation with other schools in the area as the go-to destination for swimming in Cairns. This is reflected in the increased number of local schools asking us to teach their students how to swim.

As ever, I would like to thank my awesome team; Dionne, Troy, Rachelle and Mel as well as the many parent volunteers from TAS Swimming who contribute their valuable time and energy on a daily basis.

**Mr Duncan Todd  
Director of Swimming**

# CHESS

The Far North Queensland Interschool Chess Tournaments were held in the Bishop Centre Terms 1, 2 and 3. It was pleasing to see so many students enjoying the challenges of chess with such enthusiasm and contributing to their team. Dedication, preparation, higher-order thinking and good sportsmanship were applied and rewarded with awesome results.

TAS WRJ Qu: Lucas Qu, Joanna Chen, Jack O'Neill, Angela Xiang and TAS WRJ Nguyen: James Nguyen, Liam O'Shea, Pragyan Pandey and Ryan Goodfellow have qualified to play in the State Finals in Brisbane. We will also send two WRJ Girls teams TAS WRJ Chen: Joanna Chen, Angela Xiang, Melody Grace, Caitlyn Mock and TAS WRJ Ulm: Poppy Ulm, Nyla Harris, Georgia Mann, Matilda Hancock to compete in the Girls State Finals.

At the Queensland Girls State Final held in Brisbane, the TAS Girls Chess teams finished 2nd in Premier Division and 2nd in Open Division.

They are now officially Queensland Regional Champions and runner up State Champions.

At the Queensland Interschool Open State Finals, TAS Chess players had a wonderful Open State tournament and were announced as Regional Champions and finished in 7th place overall in the state out of 40 teams.

Thank you to all the students, staff, families and friends that have supported and encouraged chess this year.

Special congratulations to all students who made their debut in 2019.

The benefits of chess are awesome!

**Mr David Long**  
**Chess Coach**

# HOUSES

# DALRYMPLE DOLPHINS

For the Dalrymple Dolphins, 2019 has been a year which has certainly lived up to the motto: UNITED THROUGH SPIRIT. It was with much sadness that in the early part of Term 1, we learnt that our beloved Miss P had passed away. While this loss was felt deeply by all, the students of Dalrymple supported each other during this time and rallied around one another. Miss P's influence will never be forgotten and her memory will live on within our hearts.

House Day was an exciting way to introduce new students and reconnect with fellow dolphins. Whether it was trying to break new records on the mat racer or laze about in the pools of Sugar World, the morning was enjoyed by all. Returning back to school in the afternoon, the house was greeted with a sausage sizzle, organised by the year 12's and Dr Ezard. Furthermore, the house learnt cheers, played dodgeball and participated in team building activities. Overall, house day was certainly the best kickstart to 2019.

As the Term 1 progressed, the Interhouse Swimming Carnival was fast approaching. It was tradition that Dalrymple won the cheering competition at this event as we held a 4-year winning streak. Coming second wasn't the desired outcome we hoped to achieve, but this did not hold back our success in the swimming. Somehow, we dolphins aren't famous for swimming, but this year was phenomenal. The whole house pushed through injuries, nerves and the dreaded butterfly event with the three core values of motivation, spirit and participation. It also needs to be recognised that many individuals stepped out of their comfort zones to participate for the house.

The next event the dolphins faced was Cross Country. This notorious event is known for pushing the limits of both your physical and mental state. It was great to see the whole house come together, encouraging and supporting each other on a painful and blisteringly hot day.

One of the most competitive carnivals, the Athletics Carnival, was a time for the dolphins to put their running, jumping and throwing skills to the test. There were numerous achievements and house spirit was once again

at an outstanding level with students putting themselves forward to events that they may have not been comfortable in. These acts of participation is what makes the Dalrymple house such a strong community.

Beginning with a chapel service to celebrate the school's 37th birthday, Trinity Day is a way for the house to meet emerging students and participate in numerous activities. Rather wet, it was great to see so many students participate in the dash and use their strength in the Tug-o-war, of which Dalrymple was quite successful.

In Term 3, Dalrymple house made their way to the pool for the annual and unique, Interhouse Triathlon. The Dalrymple dolphins were pushed to the extremes by swimming, riding and running. It was great seeing the amount of spirit and encouragement that the house gave and the effort involved in this competition.

A very well-prepared speech goes along way. Our public speakers and debaters were a credit to everyone in the house, thank you for putting in the hard yards! Not only that, but I was astounded by the willingness and level of collaboration each team had prior to the competition. In these unique events, it is always impressive to see students step outside of their comfort zone and support the house in every way possible.

The shortest term of the year, Term 4, hosts one of most enthralling interhouse carnivals of the year. The Interhouse Singing Competition! Dalrymple has been prepped by the Year 11's with great choreography and gave their all in this final celebration of the year.

This year, the dolphins certainly faced some challenges that made us reflect beyond carnival performance. The most amazing thing was that no matter what circumstance we faced, we still gave a tremendous amount of motivation, spirit and level of participation into every house event. Well done Dalrymple, and best of luck for 2020! LETS GET FIRED UP!!!

**Ky Rankin  
House Captain 2019**

# KENNEDY CROCODILES

Kennedy has always and continues to hold family as our central motive. We strive for success and are victorious as a family.

Term 1 kicked off our busy school year with a splash at our annual House day. Crocs new and old got to participate in fantastic house bonding activities, as well as spend half the day at Sugarworld; enjoying a refreshing morning of watermelon and waterslides. The crocs wasted no time drying off, getting ready to jump straight into the pool for the Swimming Carnival. We showed our spirit marching into the aquatic centre to the tune of "Glory Glory" and swam our hearts out, with a few of our crocs receiving fantastic results, placing on the podium and achieving new PBs. The day concluded with our cheering competition which the Kennedy family participated in wholeheartedly. To conclude the term, we showcased our endurance, dedication and motivation in the Interschool Cross Country Carnival.

Term 2 tested our family as we braced ourselves for the strenuous term ahead. The crocs participated in the Interhouse Athletics Carnival to the best of their ability, with everyone helping to fill in the events and volunteering in the absence of some ill members of the house. Their spirit and efforts were boundless, carrying over to the Trinity Day events. Crocs participating in the Tug-o-War and dash received cheers from their dutiful supporters. The term concluded with teams of students debating varying topics against opposing teams. All participants did incredibly and achieved phenomenal results.

Term 3 began to ease us into the end of the year with only two house events scheduled. The triathlon had some of the highest participation for Kennedy all year, displaying our spirit and eagerness to take on the challenge. We did remarkably and are proud of our family for participating to the best of their ability. We finished the term by watching six of our brave crocs compete in public speaking. We truly excelled, with our exceptional students placing in the top three within each age group.

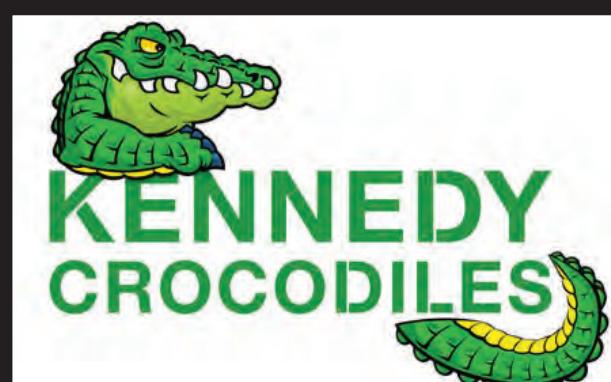

Term 4 was the finale to our busy year with the Interschool Singing Competition. Our Year 11

students displayed outstanding leadership skills in teaching the House. As a result, we never missed a beat to "Can't Stop This Feeling" and our performance was exemplary for "Uptown Girl".

Our House has not let us down all year, putting an amazing effort and making 2019 a memorable year of victory and success together, as a family. There is no doubt that the leaders of 2020 will continue Kennedy's tradition of spirit and commitment to the House.

Layna Stapleton  
House Captains 2019**

# LEICHHARDT LIONS

**Term 1** commenced at a cracking pace with new and returning students engaged in House Day. The morning was spent introducing the new Lions of the Pride to the traditions, values and culture of Leichhardt House. The day was topped off by spending an enjoyable afternoon on the Sugarworld Water Slides. A few weeks later and the House was ‘in the swim of things’ at the first interhouse competition of the year, the swimming carnival. Considering felines do not particularly like water, the Pride did a stunning job, winning the overall trophy for the first time in living memory. There were outstanding performances from every Lion, but particularly Leichhardt House’s U14 Girls Medley Relay Team and the U14 Girls 10 x 50 Freestyle Relay Team who broke ten year old records. The latter by an astonishing seventeen seconds. The entire house could indeed be proud of their house spirit and competitive performances on this day. Soon after shaking the water from our golden coats, we were up and running in the Interhouse Cross-Country Carnival. Our DNA developed from generations of running on the Savannah Plains held the Pride in good stead with the House finishing ahead of the pack. Thank you to the Leichhardt House Tutors for the now accustomed Taco Celebratory Lunch. On the last day of term, Leichhardt House’s nine debating teams matched their knowledge, cunning and wit against the other houses. The House could not have felt better represented by our courageous twenty-seven debates, finishing a commendable third place overall.

**Term 2** was ‘action packed’. First event was the Interhouse Athletics Carnival. Every Lion ran, jumped and threw with every ounce of their physical fibre and house spirit. The collective contribution of every Lion in the Pride again resulted in Leichhardt House taking the top spot. Ever conscious of our roles and responsibilities in our regional community, Leichhardt House hosted this year’s Biggest Morning Tea in support of the Cancer Council. This event was generously supported by the entire TAS community, reaching our sizable goal for funds raised. Trinity Day was quickly upon us and Leichhardt House was prepared with dash runner and Tug-o-War participants

at the ready. Our Dashers, demonstrating zip and endurance, exceeded all expectations, winning this event of the day. Immediately our attention turned to the hotly contested Tug-o-War competitions.

Leichhardt House fielded three of its’ strongest teams ever, placing second in the Year 9/10 Category and winning the Year 7/8 and Year 11/12 Categories. With House Spirit at an all-time high, our signature event approached... The Triathlon.

**Term 3**, the penultimate term for 2019 was headlined by the Interhouse Triathlon. The Triathlon is typically an eagerly anticipated event for the members of Leichhardt House — this year proving no different. It was a fun (although challenging) day for many. The Lions swam, cycled and ran with determination and resolve to take out this gruelling event; we could not have been more proud of every Lion. To conclude the term, six of our bravest and most accomplished speakers represented the House in the Public Speaking Competition. Again, our speakers performed admirably, finishing second overall.

**Term 4**. Now we have reached the final term for 2019. At the time of writing, the year 12’s are counting down to their final school day, and the House is preparing for the years final interhouse event, the Singing Competition.

The House’s chosen song is George Ezra’s ‘Shotgun’ and the set song is Billy Joel’s ‘Uptown Girl’. The Year 11’s stepped up to the plate and led the House through choreography and vocals. We have treasured every moment of this year, but as with all good things, it must come to an end. Thank you to everyone for an amazing year that we will never forget, each and every member of Leichhardt house has a special place in our heart—

**Ariana Stones and Joel Sutherland

L-R: Sarah Wonnacott, Mr. Michael Haseldine, Alexander Swanston

# MULLIGAN MUSTANGS

As 2019 comes to a close, we have been reflecting back on the amazing year Mulligan has had. We began the year with the House Day at Sugar World, which was a great bonding experience for all of our old and new Mustangs. We bonded over tutor group activities, races on the slides, and our shared love for a good Aussie snag.

We started the first of our Interhouse competitions, being the Swimming Carnival and Cheering Competition, full of vim and vigour. Dressed in our ‘tropical’ shirts and tinted glasses, we gave it our all during the cheering and came away with a win! Unfortunately, we just scraped behind Leichhardt in the Swimming Competition, coming away with second place overall. However, the team effort and spirit showed a promising start to our #YearoftheMustangs. Next up was Cross-Country where even though we didn’t win, we were so proud of everybody who participated and crossed that finish line for the House.

We began Term 2 with a spring in our step and ready for the intense term ahead. The first event was the House favourite, the Athletics Carnival. Many people came with sparkling faces and hair to show off the glitter theme. Everyone had a chance to get involved; whether it be long-distance running, sprints, throwing or even jumping events. Finishing the event with a close second just behind Leichhardt again, we left the event sore but still with smiles on our faces from the amazing effort everyone put in. We marched on with the same spirit into the Trinity Day Events with the whole House cheering on the courageous ‘Trinity Day Dash’ students and the tough ‘Tug-o-War’ teams. The last competition for the term was the Debating Competition, where 27 brave Mulligan students from Years 7 to 12 faced off against the other three houses. All students within the House, particularly the Year 12 students, helped out by assisting in writing sections for the debate, doing intense research, and coming up with some catchy slogans. The overall results were a two-way tie between us (the Mighty Mulligan Mustangs), and Dalrymple.

Term 3 began with intense preparation from the

House, with Triathlon happening in week 3. On the day the House performed incredibly well taking the Dragonheart Trophy for participation and securing a hard-earned second place for the overall event. There were many instances of House commitment being shown around Triathlon; one such case where a student didn’t have a bike but rather than give up and do a team event he committed and found a bike at the last minute and completed the full event.

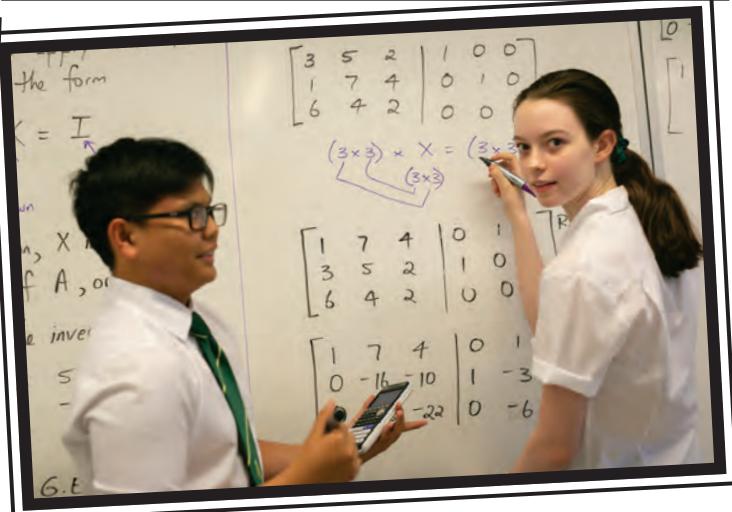

At the conclusion of the Triathlon the house’s focus turned to Singing Competition and Public Speaking. The Interhouse Public Speaking Competition consists of three age categories; Year 7-8, 9-10 and 11-12, with one boy and one girl speaking in each category. Overall for each category Mulligan took 1st place for 7-8, 2nd for 9-10 and 1st again for 11-12 with a first place overall highlighting the commitment and spirit of the individuals within the House.

Singing Competition is the last Interhouse event of the year and is when the Year 11 students get the opportunity to showcase their leadership skills by selecting a song, and leading the choreography and vocals for both the set song and the house’s chosen song. The set song and chosen songs this year were ‘Uptown Girl’ by Billie Joel and ‘I Want it That Way’ by the Backstreet Boys. Singing Competition provides a unique challenge for the Year 11 students to step up, however, the House always performs their best on the day of the competition and this year is no exception.

As both Seniors and the 2019 House Captains, we would like to say how proud we are to be in Mulligan and of the spirited students in the Mustang family. We would also like to extend our gratitude to all of the amazing teachers who guided us and cheered us on along the way, particularly the mighty Mr Haseldine. We are confident the future for Mulligan is looking bright and we can’t wait to hear what’s next to come, as this year has definitely been one for the history books.

***Sarah Wonnacott and  
Alexander Swanston  
House Captains 2019***

# SENIOR COHORT

# SCIENCE, TECHNOLOGY ENGINEERING AND MATHEMATICS

## MATHEMATICS

The TAS Mathematics Faculty farewelled one of its favourite sons at the end of the 2018 school year, as Mr Ron Tippet retired, after more than twenty-five years of valued service to the school. Over these many years, Ron has inspired and informed the mathematical achievement and mastery of countless many students, particularly in the senior year levels. His enormous depth of knowledge and enthusiasm for mathematics will be greatly missed, as will his many extra services he was always so willing to provide. From volunteering his time to engrave calculators, to individual conferencing after exams, to making sure the younger TAS students began with a solid grounding in hockey fundamentals, Ron has certainly been a very big part of TAS and a very valued member of staff. We are happy to say that he can still regularly be seen around Cairns, from the markets to the esplanade to the hockey grounds, and most fortunately when he comes back to TAS to do supply teaching. We always welcome the sight of Ron and his happy and caring approach. We sincerely thank you Ron – it has been an absolute pleasure to work alongside such a genuine gentleman and a fountain of mathematical knowledge.

With the departure of Mr Tippet, we welcomed three new members of staff, with Mr Handa and Mr MacDermott joining us in Term One and Mr Leroy in Term Three. They all settled in very quickly and have begun making valuable contributions to the mathematics faculty.

This year, staff were faced with the challenge of implementing the new senior SATE-ATAR system in Year 11, while ensuring that our final group of Year 12 students to obtain an OP maintained their focus on that goal. The transition from one tertiary admission process to the next ensured that 2019 would be another very busy year for the staff of the mathematics faculty and they are to be thanked and

congratulated for their tireless efforts in making sure that the transition was as smooth as possible so our senior students have the best possible opportunities to fulfil their academic potential at secondary school and beyond.

Staff set about planning new units of work and assessment items to be approved by the Queensland Curriculum and Assessment Authority, while students began to understand the need to retain knowledge for longer periods of time. In 2020, our first group of Year 12 students will share the new experience with their colleagues across the entire state. This is an extremely busy, but exciting time in the history of education in this Queensland.

No sooner had we farewelled the graduates of 2018, whose academic achievements were again outstanding, that we embarked on another exciting year that has been 2019. Early in the year, students in Years 7 and 9 attended enrichment days hosted by the QCAA (Queensland Association of Mathematics Teachers) at a neighbouring school, during which presenters from James Cook University, Central Queensland University and technology companies were among several providers who hosted workshops on the days, allowing student to experience extension activities that stretched their mathematical thinking to well outside the regular quadrilateral. Although places were limited, students who attended thoroughly enjoyed the experience and we look forward to sending more students to such activities in coming years.

Following our recent appearance at the State Finals in 2017, we once again competed in the QAMT Year 7/8 Mathematics Quiz. Our team included Year 8 students, Myuri Gopalapillai and Yuri O'Halloran who, along with Year 7 student Liam Barnett, toiled hard but narrowly missed out on progressing to Round Two. Thanks also go Amber Robinson who trained hard as part of the team but was struck down by illness on the day of the competition, with Yuri stepping in

as a last minute replacement. Although slightly disappointed with our result, we can be assured that TAS will be back in 2020 with another enthusiastic Quiz team.

TAS students continued to excel in the ICAS Mathematics competition, with many of our students being recognised for their very high achievements. One of the highlights in mathematics this year, however, was the phenomenal number of students who entered the Australian Mathematics Competition. On Thursday, August 1st, a staggering 76 students sat in the Bishop Centre to compete in a completely optional activity, which illustrates the extent of enthusiasm that TAS students show for mathematics and is truly inspirational to staff in the maths faculty. The number of entrants has increased every year in the past six years, but this year was a massive jump up in numbers and we hope to see just as many or even more

students competing in 2020. Congratulations go not only to all students who competed, but to all TAS students who keep striving to improve their ability in mathematics.

Every week, we see students taking advantage of the extra help and tutorial opportunities provided by the mathematics staff at TAS and while students continue to demonstrate the desire to be their best, we can be sure that TAS teachers will keep doing their best to support them. Thanks to the mathematics staff for all their hard work during this past year. It has been a stressful year, but an exciting and rewarding one. We look forward to another busy year in 2020

**Mr Mark Pacey**  
**Head of Faculty, Mathematics**

# SCIENCE, TECHNOLOGY ENGINEERING AND MATHEMATICS

## SCIENCE

How quickly the year has passed in what has been a successful, incredibly busy, not to mention challenging 2019 for Trinity Anglican School Science Faculty. Our students have produced some outstanding results and they have enjoyed a wide variety of learning experiences.

Our Year 9/10 STEM class performed admirably at the FNQ Science and Engineering Challenge at the beginning of Term 2. Eight activities saw students working in teams to design, create and test a variety of objects and each was subject to specific conditions and requirements. Flat-Pack involved the design and construction of a model table and chair able to support the weight of Ginger and Spot, the family pets. The furniture needed to be cost effective in order to generate a profit when put into production. Grasping at straws had students designing and building a 'bionic hand' from PVC pipe, string, straws, and timber coffee stirrers. Each group then assessed the effectiveness of their construction in several tests. Helter Skelter Shelter required construction of a tall earthquake-proof tower using only basic materials, sound engineering principles, and ingenuity. At the end of the session, the towers were put to the test on an earthquake simulator. Return to Mars involved the construction of a vehicle to quickly transverse an undulating surface using rubber bands for the suspension system.

The STEM class also attended the Cairns STEM Fair, held at St Mary's during National Science Week, where they showcased their amazing project on biodiesel.

This year at TAS, National Science Week morphed into National STEM Week, with a program that involved all students on some level. The third Interhouse Tutor Group Science Trivia Quiz was a very close contest, won by Mulligan (MALA) by the narrowest of margins.

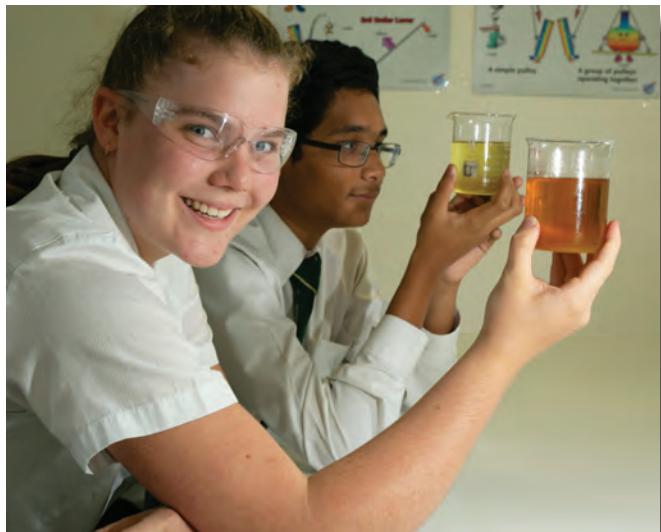

Congratulations to the winning team and to the other tutor groups for their spirited and good-natured participation.

Monday had us hosting WRJ Year 3-6 students who rotated through biology, chemistry and physics activities and demonstrations. On Tuesday our Year 7 cohort headed to the Cairns Aquarium for the morning whilst Year 9 students rotated through sessions involving some amazing drones, coding and electronics. On Wednesday our Year 11 and 12 students listened to a presentation by Dr Phillip Musemeci on space junk and lasers and the astronomy evening was well attended by members of the TAS Community. Biology students were awed by Dr Alex Loukas who presented them with highlights of his research into parasitic worms on Thursday morning, whilst the Year 10 cohort rotated through coding and electronics sessions. In one of these sessions, students each built a solar powered light. These will be sent to students in villages where they have no electricity, in countries including Papua New Guinea. The Round Square Committee contributed significant funds towards this activity. The final day of STEM week saw the Year 8 cohort take their turn with a half day of bridge-building using paddle pop sticks and glue. Mr Sjogren provided students with some fundamental engineering advice to get them started and there was a wonderful spirit of cooperation and teamwork evident within the groups.

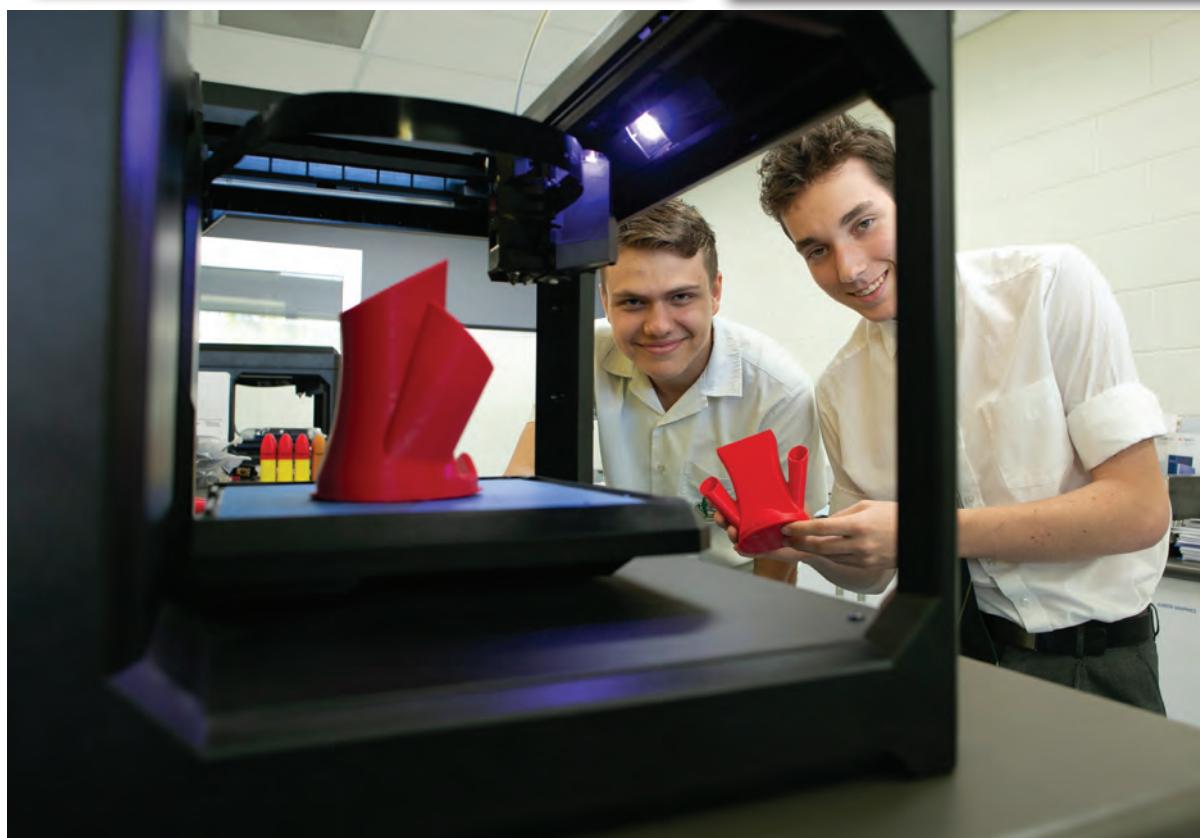

Fieldwork remains an important part of the science curriculum. Year 12 Biology students enjoyed a fabulous day at the Holloways Beach Environmental Education Centre, where they enhanced their knowledge of ecology and mangrove communities, improved their observational skills and participated in quadrat sampling. Year 11 Marine Biology students participated in several field excursions which included a day out at the reef during STEM week.

Year 7 and 8 students were also treated to an entertaining science presentation from Dr Andrew Stephenson and his team from the University of Queensland.

This year has been a particularly challenging one as our teachers have grappled with significant changes in curriculum and assessment in senior subjects. I would like to thank the incredibly dedicated and supportive members of the Science Faculty for their hard work throughout this exceptionally busy time. I wish all members of the TAS community and their families a safe and joyous festive season.

**Ms Kerry Moyer**  
**Head of Faculty, Science**

# DRAMA @ WRS

*The magic of theatre is that it has the power to transform an audience, an individual, or en masse; to transform them and give them an epiphanal experience that changes their life, opens their hearts and their minds, and the way they think and view the world.*

– Brian Stokes Mitchell, actor.

2019 has certainly been a year of transformation and reformation, and with that, both challenges and triumphs. With the introduction and influence of the new QCE and General Syllabus, all students have engaged in inquiry-focused learning that explores the theatrical forms and modes of practice. Led by a prominent and passionate senior group, drama students across the year levels have risen to the demands and complexities of this transition.

We were once again led and inspired by extremely accomplished and talented performers and directors this year, in a number of workshops that catered our Year 7 to 12 Drama program. The junior students were lucky to share in the playful workings of Clint Bolster from Homunculus Theatre Company, honing their comedy and clowning skills, and developing their confidence and intuition. Senior students were even luckier to have been guided by two of Australia's most renowned and leading artists, from Grin & Tonic Theatre Troupe, Kellie Lazarus and Jason Klarwein. Their expertise and passion propelled our students to further appreciate the importance of the platform that theatre provides in conversation and advocacy.

The Year 7 and 8 students were immersed in the foundations of Drama, with a strong focus on the introduction of the elements of Drama. Year 7 were required to demonstrate their knowledge and understanding of dramatic practice in performances; Twisted Fairy Tales showed characters in a new light, including the Big Bad Wolf and Goldie Locks, while the Choreography allowed us to enjoy world-renowned characters and songs from Matilda, Mary Poppins and Annie. We have been both entertained and impressed by the calibre of work produced by our youngest group. Year Eight students were encouraged to take their prior knowledge of the

dramatic elements, and consolidate this in more refined performance work. Now with a focus on dramatic style, students were able to tailor their performance techniques to accommodate the ever-humorous outcomes of Comedy and Clowning. They developed and presented their own skits that demonstrated their ability to adapt characterisation and timing for a particular purpose within this style of performance. This was then contrasted in Term 2, when students enjoyed the darkness and mystery of the Witches of Macbeth in their Gothic Theatre unit. Similarly, they were required to adapt basic acting and production techniques for the suitability of the dramatic style.

Students in Years 9 and 10 were offered a versatile course of study this year, with the opportunity to create, present and reflect on works that appeal to different audiences for different reasons. Term 1 allowed students to address and comment on prominent social issues through Collage Drama. The focus shifted in Term 2 to a more entertaining and amusing mode of performance, as students travelled out to the Kewarra Beach Campus to present a devised production for the junior school students. Children's Theatre became a favourite for our aspiring dramatists, as processes and performance skills were learnt, refined and reflected. Semester 2 continued to provide students with the opportunity to create and collaborate in a space that offered very little restrictions. Term 3 allowed students to go beyond the world they know, in a Magical Realism unit, where they were able to apply their understanding of the merge between the magical and real. Term Four capped off the year with a unit designed to solely put students on the spot. Through a heavily practical regime, students developed and refined their performance skills and their ability to collaborate in an instant, through improvisation.

Where opportunity allowed for it, the senior Drama students enjoyed shared experiences and activities, despite their individual courses and tasks. A difficult year to balance and refine the concurrent delivery of two very different

syllabi, these students embraced the change and masterfully navigated their way through.

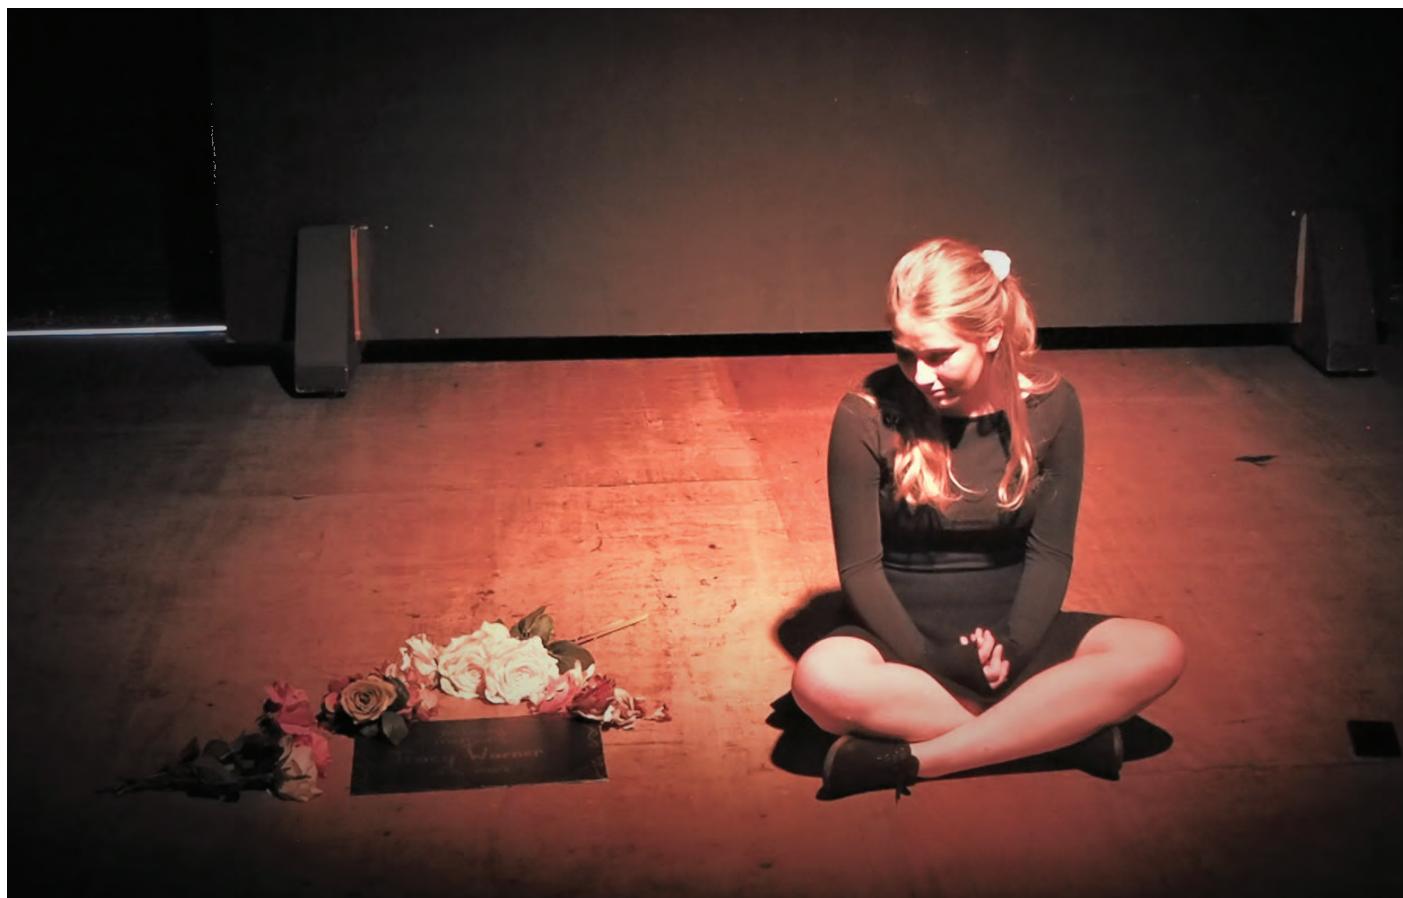

The focus for the Year 11 students has shifted within the new syllabus, where form and theory of dramatic practice now lays the foundation of their learning. Unit 1 required students to experiment with and manipulate the various modes of storytelling, emphasising the importance of shared understanding of the human experience. Leading into Unit 2 was seamless, as students were then required to demonstrate understanding of the importance of reflecting on lived experiences, and authentic representation on stage through Realism. At the end of this year, students have commenced Year 12 studies, beginning with Unit 3. They will investigate styles that are united by social commentary and that question the world we live in, to advocate change within social and political contexts.

Year 12 students, although a small group, have made a lasting impression on the Drama program here at Trinity Anglican School. The level of professionalism, innovation and talent that these three students have exhibited this year is a testament to their determination and ability. In Semester 1, students engaged with the realist style, demonstrating authenticity and representation of realities, in both performance

work and creating. In their second and final semester of senior Drama, students have exercised their understanding of the world and societal constructs, through political theatre. Engaging with the complex and unconventional work of Bertolt Brecht and Samuel Beckett, they have both created and presented pieces that make comment on the human experience, and challenge the ideals of existentialism. As competent and now refined artists, their presence and sheer devotion to the Drama course will be greatly missed.

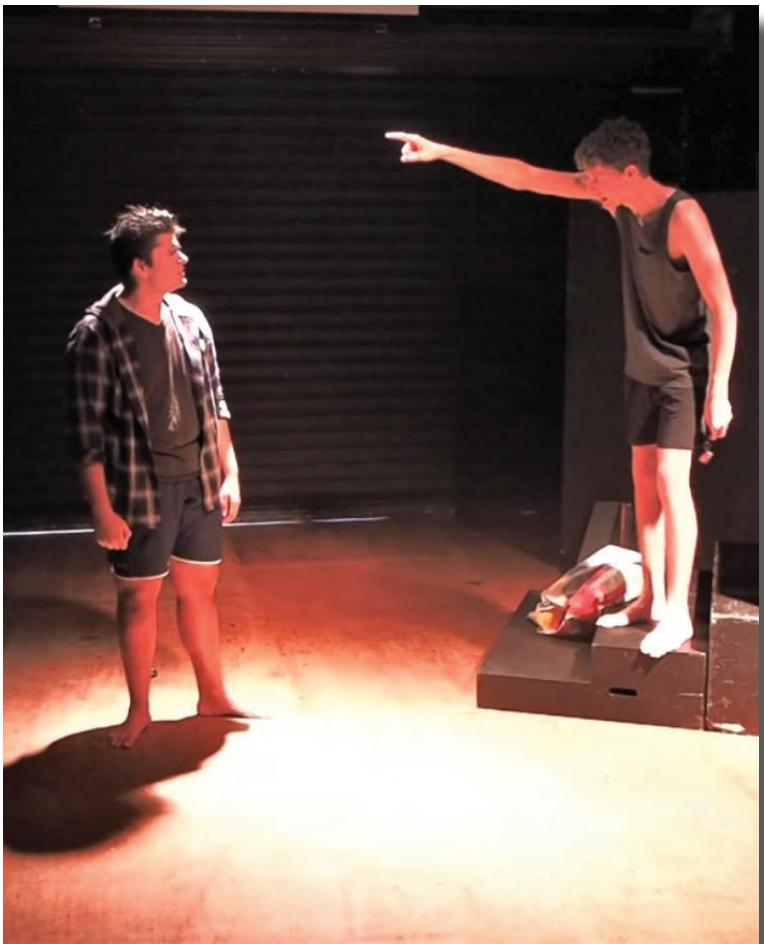

2019 has been an intense and surprising year, with lots of changes now starting to take form. I am incredibly proud of my students who have proven to be capable and diligent artists, as they withstand the continuing evolution of the senior course. They embrace the opportunity and challenge of transformation with rigor and enthusiasm. 2020 will prove to be an even mightier beast, and I am confident that our students will succeed.

**Miss Shannon Saunders**  
**Drama Teacher**

# DRAMA @ WRS

# VISUAL ART @ WRS

Visual Art is a creative form whose products are to be appreciated by sight. Art instruction helps students with the development of motor skills, language skills, social skills, decision-making, risk-taking and innovation. Visual Arts teach students about colour, layout, perspective and balance, all techniques that are necessary in presentations of academic work. 2019 did all of this and more.

Year 7 drawing and painting highlighted some excellent skills using self-portraiture as their learning platform. From stippling and crosshatching using a tortillon, to palette knives and impasto for painting, students embraced the challenge to develop techniques and artworks in order to create images of themselves that stemmed from both realism and abstraction.

Year 8 proved to be the cohort with determination. Having to tackle the creation of a 'body of work' (two artworks using two different mediums) for the first time was not a problem for these strong-minded artists. Charcoal drawings and relief lino prints were constructed based on a personal totem to explore indigenous culture and identity. An artist talk by international and locally known artist Brian Robinson was a delightful surprise for the students.

Year 9 elective Visual Art students excelled this year. Both courses were enhanced by full-day workshops at TAFE North, using industry standard equipment for ceramics and printmaking. The Aquarium was, again, an excellent stimulus for the Marine unit for ceramics, and the artist workshop with Hannah Parker allowed students to produce exquisite dry point etchings. The lino prints this year were exceptional and four student works were chosen to now be permanently displayed in the conference room in the administration building of the school.

Year 10 saw a new venture for our wearable artists, travelling to Mandurah in Perth to attend the Wearable Art Showcase. The event was inspiring, and with their theme of the future, students completed flamboyant work under the mentorship of Brisbane-based artist, Claudia Williams, to enter and proudly wear their designs at the Cairns Show Wearable Art Competition.

Oil painting is like the 'Christmas' of elective art, with students exploring this fabulous medium through still life and landscape genres. Painting tips and mentorship was learnt through a workshop with local artist, Andrea Huelin.

Year 11 were excellent artists considering their course this year marked the beginning of the new SATE system. Both Unit 1 and Unit 2 were handled with confident experimentation and creative thinking which began with a material and technique workshop with John Eaton from Oxlades. Four students became exhibiting artists, and our first site stimulus to Rusty's Markets was a perfect introduction to the new course structure.

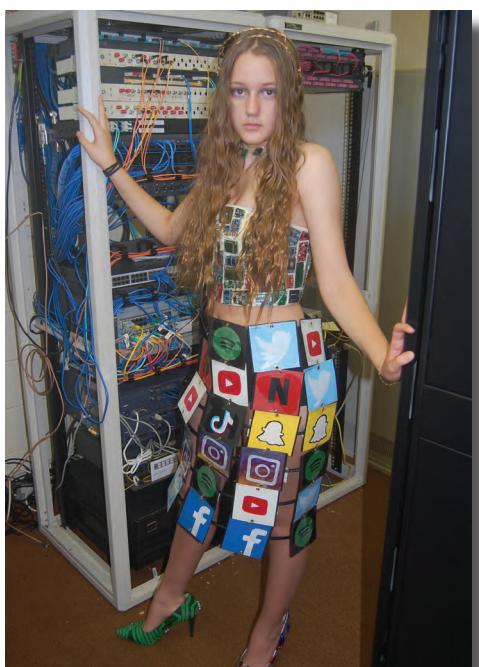

Year 12 students were like the three musketeers, a small but mighty team that enjoyed working independently in their side studio space for the final year of the authority syllabus. This year is the last time students at TAS will create two bodies of work through the Visual Literacy, Application and Appraising dimensions. All three students had an artwork displayed at the ENERGY Exhibition at the Tanks, with Bethany Thomson receiving an award.

Music is written so people can listen to it, Artist make art so that people can view it. This ideal is the foundation for the multiple exhibition opportunities that we offer for our senior students in Visual Art.

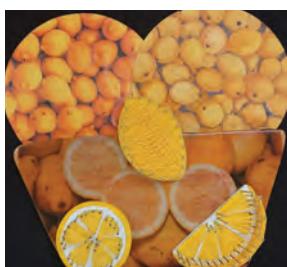

- Flame Exhibition (two students),
- Receive<Respond (four students selected),
- Creative Generations (three students),
- ENERGY Exhibition (nine students entered),
- Cairns Show Photography Competition (eight students participated) and
- Cairns Show Wearable Art Competition.

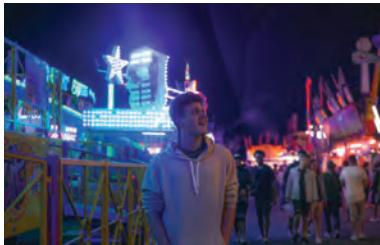

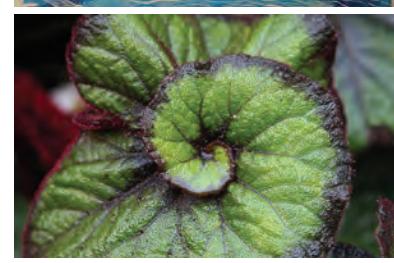

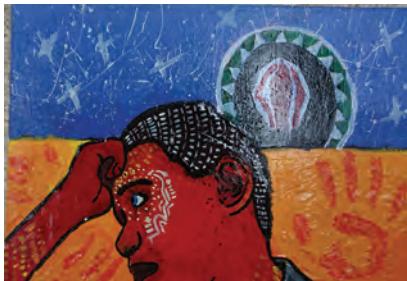

Each year the artworks seem to evolve and having the opportunity to nurture the students and their creative thinking is the best part of every day here in the Visual Art department at TAS.

**Ms Leanne Shead  
Visual Arts Teacher**

# VISUAL ART @ WRS

# CLASSROOM MUSIC @ WRS

*“Music gives a soul to the universe, wings to the mind, flight to the imagination and life to everything.”*

— Plato

Senior School Classroom Music at TAS aims to develop students' ability to express their creativity through a sequence of performing, composing and responding tasks throughout the secondary years. Once again, there were many opportunities this year for students to shine.

Year 7 students worked together in groups to create their own rhythmic performances inspired by “Stomp: Out Loud!” They utilised body percussion and everyday items to compose and perform energetic rhythms to the rest of the class. Students also developed their individual keyboard playing skills and worked through a series of well-known pieces, which culminated in a class performance. They were introduced to the exciting composition possibilities of the software Soundtrap, which they used to create their own music through a combination of instrumental loops and sound recordings.

Year 8 students were introduced to the guitar and learned a variety of chords and strumming patterns, in order to perform a piece of their choice to the class. For their second performance they were able to choose their preferred instrument out of keyboard or guitar to further their skills. Students continued to develop their music literacy through melody-writing and composed their own riffs to chords using the music notation software Noteflight.

Year 9 and 10 combined classes enthusiastically embraced the subject content and enjoyed the opportunities to further their performance skills on their chosen instrument or vocal specialty. Semester 1 students experienced an engaging songwriting workshop with local musician Chris Wighton, and went on to compose their own pop song with lyrics using the music notation software Sibelius. This was an excellent

exercise in music literacy, with students word-setting lyrics to a melody and chords, using traditional notation. Semester 2 students created a blues composition utilising a range of instruments on Sibelius, and both cohorts experienced using the GarageBand program for music composition and recording. Students also responded to music they listen to by analysing the music elements to evaluate how successfully the composers and/or performers created mood and style; this knowledge then influenced the students' own performances and compositions.

Year 11 were introduced to the new Senior Syllabus' Units 1 and 2, Designs and Identity, and successfully completed the associated performing and composing tasks. The Integrated Project task explored musical identity in an area of the students' own interests, which uncovered some fascinating topics and allowed students to deepen their understanding of their chosen area of specialty.

Year 12 students worked industriously in their final year as they delved into study of musical “Innovators” and “Entertainers”. Musicology tasks allowed students to analyse and evaluate music from a wide range of styles and genres in-depth. Students created some excellent compositions with individual flair and practised diligently to produce polished performances. Students in both Year 11 and 12 enjoyed the opportunity to attend excellent live concerts by the NQ Chamber Orchestra and Opera Queensland at the Cairns Performing Arts Centre.

This year the goal of developing creative expression was again achieved and I continue to be amazed at the creativity, talent and efforts of our TAS Music students. It is wonderful to have the opportunity to help cultivate this growth.

# WHITE ROCK JUNIOR

# WHITE ROCK JUNIOR

Industrious, productive, engaging, supportive and caring are just some of the qualities of the White Rock Junior School community. The culture we are nurturing at our lovely campus is not something that just happens. Over the last two years we have seen the partnerships between all the stakeholders strengthen.

The staff simply do not just have a job. They are invested into a profession that they are passionate about. They develop relationships with the goal of being as productive as possible in achieving the best possible outcomes for those precious children they are in charge of. We constantly see this in the achievements of our students.

The families that trust us with their children also invest into our community. It is easy to talk about the support we have received. We can rely on families to show up at functions to help, bring along food to share, serve behind a counter, improve our environment and be hands on around the campus. We are always looking at trying to improve areas whether it be in the curriculum, resources or environment and the support is outstanding. The connection between

school and home is strong and the common thread is that education is highly valued. No one can ever take away a good education it is with you for life.

The students at White Rock Junior are simply awesome. They embrace the day knowing that there will be challenges but also support if they need it. Support from their families, teachers and peers. The smiles that shine on their faces brings heart felt joy to all. When new families walk through our classrooms, deciding if they want to invest in a TAS education, the first thing they comment on is how well the students are working in the classroom, how productive they are and how well they get along. It is no wonder we have the successes that we do.

On behalf of the White Rock Junior community thank you to the families, staff and students on another great year.

**Mr Peter Gazzola**

This year, over 100 WRJ students participated in our WRJ ensembles: 3-6 Choir, P-2 Choir, Strings, Rock Bands, Beginner and Continuing Ukuleles. We hope you had an opportunity to see these delightful children perform!

# WRJ Music Memories

I hope you and your family have enjoyed our amazing music community who have worked enthusiastically all year - Mrs Anna Long 😊

The unseen Music education happens in WRJ Weekly Music lessons beginning with the Preparatory classes and is developmental through the Junior School years to the end of Year 6. Music classes at TAS teach the students the basic elements of music through singing, listening, playing instruments, movement, using solfege, rhythm and music theory!

# KEWARRA BEACH JUNIOR

# KEWARRA BEACH JUNIOR

## Kewarra Beach Junior values Entrepreneurship and Philanthropy

At Kewarra Beach Junior developing a sense of entrepreneurship and philanthropy is encouraged as part of our commitment to the Round Square Program. Throughout the year, student leaders are encouraged to initiate project proposals designed to support a charity or address a need in the school. Students help others by helping Anglicare volunteers make tactile rugs to comfort residents of aged care facilities and patients in local hospitals. Weekly visits to Kewarra Aged Care bring comfort and respite to high-care residents. Other students fundraise for specific charities by supporting the KBJ Friday Farmers' Markets – and work together to create stalls for Charities Fair and Christmas in the Courtyard Markets. But for our students, this is just the beginning.

Anna Mei Chang, author of Lean Impact, believes that "Generosity must be paired with another virtue, humility. This means switching our focus from how much we give to whether we are making a lasting impact. We also need to focus on delivering significant impact, and not only for a tiny fraction of those in need."

Enter social entrepreneurship and innovation education. In his book, The Next Generation, Tony Ryan explores opportunities that are now available to the roughly 35% of the world's population under 20 years of age; known as Generation Z and Generation Alpha, these children – our Kewarra Beach Junior students - are maturing into adults in a world that is safer, healthier, wealthier and more productive than ever before. A world of possibility awaits our children, and they will be the ones to

shape the future for us all. Our job is to prepare them for what lies ahead. They need an instinctual adaptability, quick thinking and ease with change. They need to be ready to take on whatever challenges arise. Our schools and educators need to be ready to adjust, adapt and minimise the distance between classrooms and hot spots of need across Australia and in other parts of the world.

The time for social entrepreneurship and innovation education is now. Teenagers are already an entrepreneurial force across the globe and many of them are focused on giving back. The youth of today can see big world problems and can develop business-based solutions to the challenges. They understand that living in this age requires a degree of social responsibility, big picture thinking and planning.

Some of our Kewarra Beach Junior students will take the opportunity to develop a wider global perspective through participating in Round Square conferences and projects at White Rock Senior. In 2018 our senior students travelled to the Himalayas and in Term 4, a group attended the 2019 Round Square Conference in Indore, India. Creating an awareness of the needs of others is the first step in building a better future and we are confident that our Kewarra Beach Junior students will have the mindset and skillset needed to join the social entrepreneurs and philanthropists of tomorrow.

# TRINITY ANGLICAN SCHOOL

## Mission Statement

*Trinity Anglican School inspires young men and women to be the best they can be.*

*With a focus on Christian values and educational excellence, we develop individuals who contribute to the global community.*

## School Prayer

Almighty and Everlasting God,  
We pray for our school and all who teach and learn in it.  
We thank you for the vision of our founders,  
for the peaceful surroundings of our campuses  
and for the beauty of your creation  
in which each one of us can share day by day.  
Help us to show love and concern for one another  
as Christ has shown His love for us.  
Enable us to grow in stature, knowledge and humility,  
always looking to you as our source of all wisdom  
and understanding.  
We stand together firmly in the faith of Christ,  
giving thanks for the past,  
involving ourselves in the present  
and looking forward to the future.

**TEACH US TO OBSERVE ALL THINGS**  
through Jesus Christ Our Lord.

*Amen*

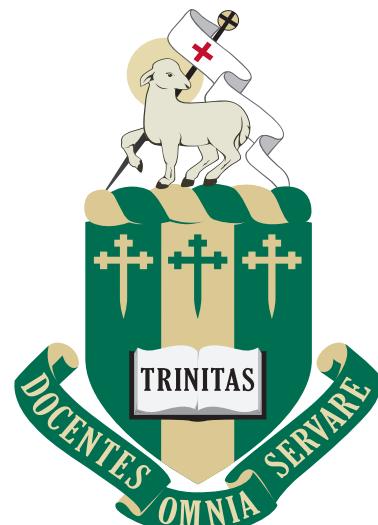

## Coat-Of-Arms

The Paschal Lamb and the Crosses symbolise our association with the Diocese of North Queensland. Both are dominant features in the Diocesan coat-of-arms.

The Open Book symbolises the word of God and wisdom.

The Paschal Lamb symbolises sacrifice.

The artist has a triadic theme running through the design to represent the Trinity - God the Father, God the Son and God the Holy Spirit.
