TRINITY ANGLICAN SCHOOL

## Introduction from the Principal

I am thrilled to announce the launch of our new Masterplan for the Kewarra Beach Campus, designed to modernise our campus and create state-of-the-art precincts that will significantly enhance our teaching and learning programs. This Masterplan is a culmination of over two years of work by multiple stakeholders and represents a bold vision for the future of our school, aiming to provide our students with the best possible environment for academic and personal growth.

The Masterplan will also see significant upgrades to our sports and recreational facilities. These improvements will promote physical well-being and provide students with more opportunities to participate in a variety of activities. Expanded green spaces and modernised communal areas will also create an inviting and supportive atmosphere, encouraging collaboration and community spirit among students, staff, and families.

The School Board proposes to seek approval for a Ministerial Infrastructure Designation (MID) from the Queensland Government in order to deliver the Masterplan. I invite you to provide your feedback and comments on the proposed Masterplan and MID.

This ambitious project is a testament to our commitment to delivering an exceptional education and nurturing environment for every student. I look forward to sharing more details about our Masterplan and working together as we embark on this exciting new chapter for Trinity Anglican School.

Paul Sjogren  
Principal  
Trinity Anglican School

## KEWARRA BEACH CAMPUS MASTERPLAN - OUR VISION

We are delighted to announce our vision for the Kewarra Beach Campus as part of our proposed Masterplan. Great care will be given to retain as many trees and green spaces as possible, preserving the character and natural beauty of our wonderful campus.

At Kewarra Beach Campus, we propose:

**New Classrooms:** Advanced learning spaces equipped with technology that supports interactive and engaging learning and best practice teaching methods.

**Updated Administration Building:** Modern facilities to improve administrative efficiency and support services.

**New Library and Resource Centre:** A contemporary facility offering extensive resources for research, reading, and collaborative learning.

**New Assembly Hall and Chapel:** A versatile space for gatherings, events, and spiritual reflection.

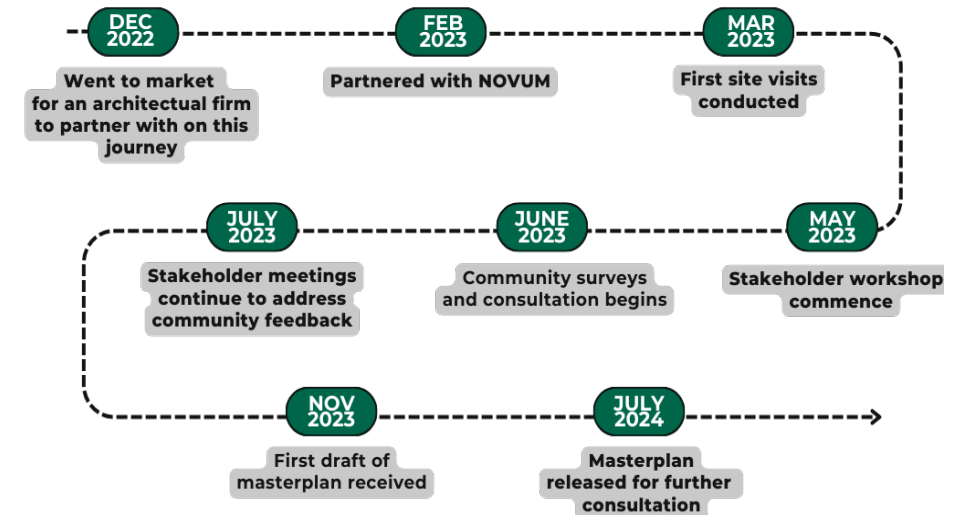

**New Tuckshop:** New tuckshop facilities and a cafe space for parents and staff.

**Expanded Sporting Facilities:** Enhanced sports fields and recreational areas to promote physical well-being and active lifestyles.

**New Nature Play Area:** A new play area designed to encourage exploration and connection with nature.

These developments reflect our commitment to providing an exceptional educational experience in a nurturing and beautiful environment. We are excited to embark on this new chapter and look forward to the positive impact these changes will have on our Kewarra Beach Campus community. We extend our gratitude to the Australian Government's Capital Grants Program (CGP) for contributing funds to the development of our Masterplan.

## OUR JOURNEY SO FAR

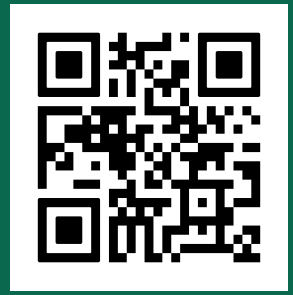

# HAVE YOUR SAY

## Existing

## Proposed

The current Kewarra Beach Campus student capacity (incl. Early Learning Centre) is 494. Student capacity after the proposed changes remains unchanged at 494. Our class and school sizes have been set based on research that indicates these sizes will deliver the best social, emotional, and academic outcomes for our students.

## Introducing

# Ministerial Infrastructure Designation (MID) Process

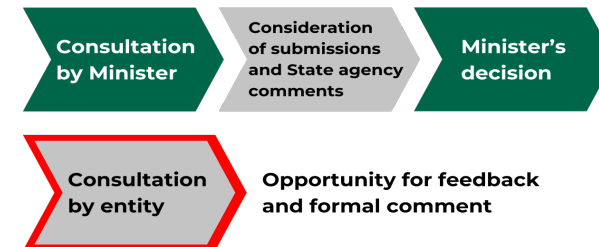

The Ministerial Infrastructure Designation (MID) process is a formal procedure under the Planning Act 2016, through which significant infrastructure projects, such as our new school Masterplan, may seek approval from the Queensland Government. The proposed MID for the Kewarra Beach Campus includes Lot 4 on SP338360 and Lease A on Lot 1 on SP328272. Approval of the MID would enable us to proceed with our Masterplan efficiently and allow for delivery in a timely manner. This process will support our mission to provide exceptional education and facilities for our students and community.

The MID process involves two stages:

Stage 1: The initial stage includes the preparation of guidance material, the undertaking of stakeholder engagement (where we are now), the endorsement to seek a MID, and the lodgement of the MID proposal.

Stage 2: Once lodged, the second stage will involve consultation with the Minister and a decision.

As Trinity Anglican School intends to seek approval for a MID, we are seeking preliminary input and views from a range of stakeholders prior to formally seeking endorsement to submit a MID from the Queensland Government. The intent of this preliminary community consultation is to gather feedback on the proposal and to identify matters that need to be addressed during the preparation of the application and then assessed as part of the MID process.

Please note that you will have the opportunity to provide further feedback and formal comments on the proposal as part of the statutory public notification period, which occurs after the Planning Minister has given permission for the MID to proceed.

## We welcome your feedback

on the Masterplan and  
MID Process for the  
Kewarra Beach Campus

- We invite you to learn more about the MID Process and the Kewarra Beach Campus Masterplan, including a “video fly-through” by visiting our website at [tas.qld.edu.au/campustransformation](https://tas.qld.edu.au/campustransformation) or scanning the QR code below.
- We seek your comments and feedback via email at [feedback\\_kb@tas.qld.edu.au](mailto:feedback_kb@tas.qld.edu.au) by **Monday 12 August 2024**.
- You can also visit our drop-in information session to discuss both the Masterplan and the MID process with representatives from the project team. For more information, please **visit [tas.qld.edu.au/campustransformation](https://tas.qld.edu.au/campustransformation)**.
- If you have any questions about the Masterplan, you can contact the project team at [feedback\\_kb@tas.qld.edu.au](mailto:feedback_kb@tas.qld.edu.au).
